## FIRE CLEARS LAND FOR $250,000 COMMUNITY BUILDING

Top Picture: A man made fire swept away the remainder of the abandoned shacks and house on the Goodenough property at Alp and Mission last Wednesday night. Here the blaze levels the main house. Firemen used the razing as a drill to better prepare them for the real thing. Lower Picture: Evidently pleased with the way the "boys" are handling the fire are, left to right: A. J. Bodien, veteran fire commissioner, Elmer Kennedy, fire chief, and Mayor Paul Green. (Photos by Page Corner)

## Community Center Building Bid Call Monday

Bids for the $295,000 Daly City Community Center building will be called for at the city council meeting this Monday, Mayor Paul Green announced today.

The bids are to be opened August 14, and contracts will be let for the work shortly after that. It is expected that construction will begin in mid September.

Site for the new structure is at the corner of Alp and Mission streets.

It was here that last Wednesday evening the Daly City fire department set the torch to the remaining shacks and useless lumber on the lot. The fire, called as a drill, came shortly after Councilman Fred Bertetta, with the assistance of a truck, pulled down the old Goodenough home.

The property is now clear for construction of the Community Building, model of which can be seen in the window of Peter J. Markovich's insurance office, 6454 Mission street.

## HOW IT LOOKS FROM A CORNER

By BILL KATZ

There is an old saying about cats having nine lives, but Police Officer Arthur Linhares is wondering this week if it doesn't hold good for dogs.

Linhares answered a call at 5:17 p.m. Wednesday to pick up a dead dog who had been killed by a motorist. Everything went according to plan, and Linhares, with the assistance of Officer John Van Otten, took the deceased fox terrier from the corner of Vista Grande and Mission to the pound.

Four hours later, another call came from Hammar Service Station. A Mrs. Gazarez of San Francisco had struck a dog near the station on Mission street with her automobile. By now Linhares was an old hand at a rather unpleasant task.

Reaching for the "dead" Irish Setter he proposed to carry him to the pound. But before he could put his hands on the dog, the pooch was "reincarnated," jumped to its feet, and sped off down the street barking.

Today Linhares is reportedly standing by the first "dead" dog waiting for the moment when it will assume its second life.

---

And speaking of the Daly City police department, we'd like to thank this week Officer Lester Bastido, who did his best to relieve another pair of "barking dogs" Monday evening.

A motorist ran out of gas midway down the extension of High-

(Continued on Page 2)

## Volunteers Called For National Guard

A vigorous but "highly selective" campaign to fill up the ranks of the California National Guard was ordered today by Major General Curtis D. O'Sullivan, California's adjutant general.

Now attending Guard encampment at Camp San Luis Obispo in his capacity as commanding general of the 49th Infantry Division of northern California, he said that he has ordered the immediate recruitment of 1,665 men, which will bring the California National Guard up to its full authorized strength.

"There are now 22,231 ground troops in the Guard, giving the State two infantry divisions, the 40th and 49th, two brigades of antiaircraft artillery and numerous groups of specialists," he reported.

"And we are emphasizing the fact that you've got to be good to get in the Guard. We are going to be highly selective in our choice of recruits," he stated.

"We will carefully screen applicants for Guard membership to maintain the highest mental and physical standards."

"While there is no present indication that National Guardsmen will be called into federal service," O'Sullivan pointed out, "we feel that there are many young men who would prefer to go with an organization of their own choosing should a national emergency be declared."

"Shortly before the end of the fiscal year last June, California was allocated an additional 696 men to bring our total ground force unit strength to approximately 24,000 men," O'Sullivan stated.

"Right now the California National Guard seeks to bring both its air and ground strength up to 29,000," the adjutant general continued.

## VET JOB RIGHTS STILL IN FORCE

Assurance of job retention rights, similar to that which was in effect during World War II, is provided for armed forces reservists who volunteer for active duty as well as for draftees under existing federal statutes, it was pointed out today by Congressman Richard Nixon.

"From the veterans viewpoint, the present law is even more advantageous than that which applied during the last war," Nixon declared, "because it fixes responsibility upon the employer to find a position for a man who returns from service with a disability, which was not previously the case."

One of the inquiries received by Congressman Nixon came from an entire unit of naval air reservists attached to the Los Alamitos Naval Air Station who were planning to volunteer for active duty.

"Job protection is provided for volunteers for a period of one enlistment, or until the serviceman

(Continued on Page 2)

## MAYOR TO ASK FOR STUDY AT COUNCIL MEET

### *Meters To Be Installed In Business District*

Daly City soon may have parking meters along Mission street.

Mayor Paul Green today said he would call for a parking meter survey of Daly City's business district at the Monday night council meeting.

His action was prompted by a petition submitted by seven businessmen in the Mission street area between Parkview and Westlake. They called for either parking meters in that district, or a 45-minute parking limit.

The mayor noted that regardless of whether or not meters are installed, the petitioners probably will be granted their request for the 45-minute limit.

A little more than one year ago an effort by the city to install meters was defeated by businessmen in this area. They objected to the move because:

1. They assert that the meters would discourage local people from trading in local stores.

2. They claim that meters would mean parallel parking along Mission, which would cut down the amount of available parking space.

3. They said the revenue from meters does not justify the expense of having them installed.

On the pro side of the argument can be found these assertions.

1. Parking meters would benefit the businessmen, as it would do away with all-day parking, thus giving the merchants a greater turnover of customers.

2. It is true it would mean parallel parking, but with the installation of traffic lights on "top of the hill" and with traffic islands this would present no traffic problem.

3. The parking meters will pay for themselves. Most companies install them and receive from 50 to 75 per cent of the revenue until such time as the meters are paid off.

4. In a recent survey made by the League of California Cities it was discovered that the gross yield per meter ranges from $38 to 115.-85 a year. In a city of Daly City's comparable size the total revenue for 325 meters was $12,888. The total annual overhead for the meters was $1,653.

The League concludes that parking meters are a "paying proposition" for any city with a population over 3,000.

Mayor Green said he would ask several meter companies to make separate surveys of Daly City's parking meter needs. The surveys should be ready by the August 14 council meeting.

The mayor indicated that unless there was strong opposition to his proposal that Daly City would soon have the meters in the business district of the community.

In a recent survey made by the Daly City Record, the majority of residents appeared in favor of such action.

## Sound Sleep Cost Daly City Family $60

Sound sleepers, Mr. and Mrs. Finlof, 73 W. Cavour, failed to hear a burglar who entered their bedroom Tuesday night and stole two wallets containing $60.

The thief entered through an open window off the front porch. The window was unlocked as the Finlof's had been painting and had

(Continued on Page 2)

## Annual Pet Show Slated For DC July 28

Every dog has his day, and this year it will be Friday, July 28 at the Daly City Recreation department's fourth annual pet show.

The show is to be held at 10 a.m. at the Jefferson High school field.

However, besides dogs, many cats are expected as well as an assortment of other animals from birds to beetles.

Boys and girls, if you don't have a pet, get a frog, a butterfly or anything that moves and bring it to the show.

Dress up your entries, for awards will be given for the best costumed pets.

Here is a sample classification of awards: Dogs, best tricks, care, largest, smallest, longest fur, longest ears, best looking, most spots, best costumed; Cats, longest whiskers, best cared for, prettiest eyes, largest, smallest and best costumed.

Especially wanted for the show are frogs and turtles, for a frog jumping contest and turtle race are in the offering.

For safety's sake, all pets must be on a leash, or in cages, or in bottles.

Other events will be held, too, including a bubble gum contest.

See your playground director for further details.

# Jeff Aces Will Play In Sunday All Star Game

## Boys Club Boxing Matches Set Aug. 4

Slugging it out August 4 will be members of the Daly City Boys Club and Sea Scout Ship No. 144.

No, the boys are not feuding, but only hoping to raise some money through a 10 bout boxing match. The fights will be staged in the Daly City Boys Club headquarters, No. 2 Hillside boulevard.

All money from the event is to go for the purchase of equipment both for the scouts and Boys Club members.

Tickets will go on sale this week—at a nominal sum. They may be purchased from any scout or Boys Club member, or at the Mid City Barber Shop, 6634 Mission street.

"We can guarantee that fight fans will get a big kick out of the bouts," Frank Bria, club director said. "And even those who don't like fights should find something to enjoy in watching the young kids battle."

Bria also called on all members of the community to buy a ticket regardless of whether or not they plan to attend. He noted that the money is to be used for the best cause known—the turning of boys into good adult citizens.

Boys Club members who to date have qualified for the matches include: Lala Huntsman, Joe Cardinali, Frank Bria Jr., John Whaley, Ken Klees and Jerry Jastrunski. Names of the scouts were not available at this time.

Meanwhile, Bria reports that more than 50 boys have joined the club and they are signing up at the rate of three to 10 a night.

The club is open every evening from 7:30 to 10:30 for all boys ranging in age from 8 to 16. They are charged a small sum for joining the club, but it is maintained through the donations and support of the community at large.

This week the Daly City Police department gave $28 toward maintaining the club.

"From time to time we will give more," Police Chief W. W. Sunderland said. "I know of no other organization that deserves more the assistance and support of Daly City residents."

At a meeting of the board of directors Tuesday evening, Bria requested that someone in this community donate a piano to the club.

"It need not be fancy, or new," Bria said. "But we certainly could use a piano for our choral work."

Anyone wishing to give a run down, or brand new piano to the club is asked to call at the clubhouse, or telephone Mrs. Marion McKaskle, secretary, at PL 5-2574.

Meanwhile, those who have donated to the boys club this week include: Robert Lynch, constable of the First Township; Joe Caualli, deputy sheriff of the First Township and Mrs. Donald B. Wilson, manager of the Toyland Nursery School.

Also thanks should go to Police Sergeant Roland Petrocchi for taking time from his duties to attend the meeting of the board, and offer many helpful suggestions to improve the organization.

### *Thief Is Now Crying "Hi, Ho Silver"*

Mrs. Ethel Congill, 350 Willits, today is wondering what possible use a San Francisco car thief can have with loot he stole from her car last Saturday morning.

The Daly City woman, an agent for a baby supply company, parked her car at Stevenson between Tenth and Ninth in San Francisco at 10 a.m. Saturday. When she returned at 12:30 p.m. she found her unlocked car had been rifled.

Total loss was $120. And what was stolen? The thief took a suitcase full of Roy Rogers, Lone Ranger and other cowboy equipment ranging from spurs to toy guns. He also lifted another suitcase filled with infant bibs, robes and towels.

## FERRETIS CLAIM CITY OWES THEM TOTAL OF $37,724

### *Based On Gas Blast Which Levelled Home*

Claims totaling $35,688 were brought against the city this week by Frank and Gertrude Ferretti whose home at 499 Lowell was destroyed by a gas explosion May 31.

In addition, Mrs. Ferretti's son, George Grennel, issued a claim for $2,036 against the city for property he allegedly lost in the blaze.

The blast, which levelled the Ferretti home, occurred at 9 a. m. Monday morning after a tractor driver assertedly tore up a length of gas pipe near the house. Gas flooded the basement and was set off by the water heater pilot light. Firemen were unable to check the blaze which completely destroyed the one story wood frame structure.

Both the Ferrettis and their son asserted the loss was the fault of the city:

"(Daly City) permitted and maintained a dangerous and defective condition of its public streets...near the residence of claimants ... of which ... condition (the city) had knowledge, and failed and neglected to remedy... and said condition proximately caused an explosion and fire."

At the time of the explosion the Fay Improvement Company was putting in new streets and sewers in the Concordia district. The Farrish Company was operating the tractor involved in the gas pipe incident.

When firemen arrived at the scene of the blaze they were unable to get their trucks close to the house. Finally, a tractor pulled one engine over the torn up street to within 100 feet of the burning home.

It is these asserted conditions on which the Ferrettis base their

(Continued on Page 2)

## Council Considers Annexation Monday

A public hearing on the proposed annexation of 318 additional acres to Daly City will be held at the regular city council meeting Monday evening.

The additional acreage, located in Westlake, will carry the boundaries of Daly City to the Pacific Ocean. No objection is expected to the annexation as all the property in question is owned by Henry Doelger, Westlake builder.

Also, the city will hold a hearing on the annexation of two additional blocks located in the Abbey homestead, just south of the Garden Valley project.

## Local Boy Fighting On Korean Front

(Editor's Note: We will be glad to print news of other Daly City men in Korea. Please contact the Daly City Record, PL 5-4321, if you have any information.)

Fighting today on the Korean front is Cpl. Leonard Nordgren, son of Mrs. Sara Nordgren, 155 Peoria street.

Cpl. Nordgren is one of the first Daly City men to see action in the present war.

His mother reports she last heard from her son in Japan, July 4, when he notified her his leave had been cancelled. He was to return home on furlough this month.

The corporal is with the Seventh Signal Corps, attached to the Seventh Infantry division. He is a graduate of Jefferson High school and has been in the army for the past two years.

When he was first sent overseas, Cpl. Nordgren spent some time in Korea. Then he was sent to Japan, and was there when hostilities broke out.

Meanwhile, Mrs. Nordgren's other son, Regner, is spending the summer in New Westminster, British Columbia, with his aunt and uncle. He will be there for the duration of the summer.

## Charity Group Needs Assistance

Undergoing complete renovation this week is the Daly City St. Vincent DePaul headquarters at 6740 Mission street.

Not only will the building have a new coat of paint and new fixtures, but also a new manager. Mrs. Gladys Morton will head the local bureau.

Due to the increased load on the Daly City branch of the welfare organization it was deemed necessary to enlarge its present quarters, Mrs. Morton said.

"We are trying to help as many families as posible in Daly City," Mrs. Morton noted. "However, we need the help of the more fortunate members of this community to carry out our program."

She called on local residents to donate everything from papers to old clothes to the bureau. These in turn are sold, or given needy families. Money from the sales is turned back for the purchase of food for the families.

Anyone wishing to contribute goods is asked to call PLaza 5-4346. A truck will pick up the material.

This is an excellent chance to clean hourse, and help a family in need, Mrs. Morton said.

### *Colma Firemen Fight Brush Blaze Monday*

Colma firemen had a brief run in with a brush fire at 6 p.m. Monday.

The fire broke out in the hills behind the Pet Cemetery in Colma.

Firemen report the blaze was brought under control in a matter of minutes, and the damage was nil.

## ED CEREGHINO, DON LUNGHI PLAY IN SUNDAY GAME

### *Daly City Men To Face San Francisco All-Stars*

By Milton Tromborg

Jefferson High's all-around ace pitcher, Ed Cereghino, will take the mound this Sunday against the San Francisco All-Star nine in the fourth Annual Examiner All-Star game at Seals Stadium at 2 p.m.

Along with Cereghino will be another Jeff ace, Don Lunghi, who paced the Indians to the 1950 Peninsula Athletic League championship.

With 24 prep players playing in the all-star classic, Cereghino is by far the most brilliant of them all. In a three-year span he has racked up a record that will stand for a long time among national prep hurlers.

He has pitched five no-hit, no-run games, 12 one-hitters, 20 two-hiters, and has won a total of 114 games, all within 3 years. He has lost only 32 games in that time.

Big Ed has perfect control on the ball and with this he has sent down 982 batters swinging, thus giving up 304 walks.

These records came from his playing for Jefferson High, 1948 to 1950, Mike Chioino's semi-pro nine, and the Examiner All-Star classic, in which he has played in the last two years.

This year, for Coach Glenn South's Indians, Cereghino had one of the most outstanding hurling records in the league. He pitched the Indians to 10 wins, with three defeats. In these wins, he had three two-hitters, one three-hitter, two five-hitters, with the rest being either six- seven- or eight-hitters.

Always a strikeout king at the plate, Ed has suddenly become a big power, and has shown that he can hit the ball, and well, too. Ed is 16 years of age, stands 6 feet 2 inches tall, and weighs a little over the 200 mark.

Remembering that Ed still has a year left at Jeff, baseball scouts will not be looking for Ed until

(Continued on Page 2)

### *Daly City's Pokey Plays Host To A Pig*

There's a pig in Daly City's pound today which Sunday afternoon led the local gendarmes and television engineers on a hectic hour chase over the Crocker hills.

The young porker was discovered wandering around the KRON-TV transmitter on the San Bruno mountain road. TV men, aware that there are no farms in the area, called on Daly City police to put the pig in the pokey.

But the reluctant pig refused to go quietly, and grunted up and down the mountain side with engineers and Officer Walsh in hot pursuit.

Finally Walsh trapped the pig and brought home the bacon to the Daly City pound.

Unless the squealer's owner is found by Friday, he will be turned over to San Mateo county authorities for some charity dinner.

### Hoarding Expensive

## Buying Spree Sends Prices Up

A buying spree of war fearing housewives has pushed food prices up sharply in Daly City and other communities throughout the state.

In a survey of 500 major grocers in the state, it was revealed that housewives have increased their daily food purchases from $2.70 to $4 in the last two weeks.

Merchants in Daly City agree that there is now increased buying, but those contacted said it was not as great as state figures would indicate.

The push to buy extra supplies has created in many commodities an artificial shortage which has boosted prices.

Since Monday, the survey indicated, coffee has jumped three cents a pound, sugar one cent, and meat from two to 15 cents a pound.

Meanwhile, the Korean war was also reflected in San Mateo this week with the disclosiure that government officials are taking a quiet check to see wh county facilities can be convert to full war output.

Airports have been contacted, as well as several steel companies in South San Francisco.

## All-Star Game

(Continued from Page 1)

that last day, when he walks down the steps of Jefferson high.

Another boy not to overlook is little Don Lunghi. Lunghi, who already has graduated from Jefferson, will be one of the starting aces in the all-star game Sunday.

As I said before, it was his bat that cleaned up the opposing hurlers and sent the Indians to the title in the play-off game against Sequoia and Palo Alto.

As Coach South always said, if ever I need someone to get on base, I always depend upon Lunghi. Lunghi's batting average was low during the P.A.L. season, mainly because he received more walks, about one for every two times at the plate.

Standing 5 feet and weighing a good 140 pounds, Lunghi will be starting the all-star game off in center field.

So there you have it, two Daly City, Jefferson High baseball players playing in the Examiner All-Star game this Sunday, July 23.

There are 20,000 free seats, so come on down and see the pitchers duel of the year, Cereghino vs. Hanlon.

**Starting Lineups**

SAN FRANCISCO

### *Red Hot Impulse Sets Hill On Fire*

Obeying an impulse, two small boys Saturday afternoon set a grass fire in the hills east of Gambetta and calmly watched five fire engines speed to the blaze.

However, their "fun" was interrupted by a police officer who, after questioning them, discovered they had started the fire.

Firemen quickly checked the fire, and police sent the 7- and 8-year-old boys home. The lads' names were turned over to the juvenile department.

No damage resulted from the blaze, firemen said.

## Ferretti Claim

(Continued from Page 1)

laim against the city.

Mrs. Ferretti, who was in the kitchen at the time of the blast, claims $2,500 from the city for contusions and abrasions and "severe mental and physical pain."

Ferretti, who operates a San Francisco restaurant, claims $23,-88 for personal property, cash nd negotiable instruments lost in he fire. He asserts he had cash eceipts from his business as well s bonds and restaurant equipnent in the home.

The Ferrettis also claim $10,000 or the loss of their house.

Both the city and the construcion company carry insurance to neet such claims.

Mayor Paul Green said the city vill investigate the claim and ome to some decision within the ext few weeks.

In all probability the city will efuse to pay, and the whole matter will be taken up in a civil uit.

Representing the Ferrettis are San Francisco attorneys Keil & Connolly, and Walter H. Duane; Rattig & Dunn.

## "Record" Reminiscence

**From the "Record" 10 Years Ago**
**June 19, 1940**

To Joyce Yates, Crocker school pupil, went the highest scholastic honor in the Jefferson elementary school district when she was awarded the American Legion Auxiliary award at graduation exercises Monday evening.

Playing to cheering crowds in San Jose, the Daly City Band won first place honors in the huge parade staged there by the state convention of the Eagles of California Sunday.

Willard Mitchell, 52 Vista Grande avenue, today is the recipient of the George Gamble scholarship at Stanford.

Colma's threat to the National Soap Box Derby Classic, 13-year-old Don Bortis, is slowly but methodically getting his enry in shape for the semi-finals at Treasure Island July 28.

We see by the ads that the Buick four-door sedan is selling for $996, while a new Chrysler may be purchased for as low as $1,148.

Iris G. Evans, 11-year-old daughter of Mr. and Mrs. John Evans, 91 San Joaquin avenue, made her debut as a concert pianist in San Francisco last week.

## HOW IT LOOKS FROM A CORNER

(Continued from Page 1)

vay No. 1 and had trudged many a mile at midnight to find a gas station. With a gallon of gas, he prepared to return to the stalled car. Only a few feet from the station Officer Bastido drove up, and offered a lift.

It is encouraging to know that Bastido, as well as other members of the Daly City police department, are not so busy as to be able to give an absent-minded motorist a helping hand.

---

We saw the Pulitzer prize play, "The Death of a Salesman" the other night, and found it, as Ridgely Cummings did a few weeks ago, worth the reams of publicity and controversy it has stirred up in the American press.

It is a great play, skillfully acted and staged. More could be said of the play, but we believe the discussion in the lobby between the two acts is the best criticism we have heard to date.

"Why, Willy Loman is almost like my father," a middle-aged matron said. "He's so life like it's frightening."

Wandering through the lobby we heard the same comment time and time again from men and women of every walk of life. If Willy Loman didn't remind them of a father, it was a brother, an uncle, a relation, or a close friend.

Those familiar with the play know that Willy symbolizes the futility, at least for most men, of the non-productive life of selling, as opposed to creation either with the imagination or hands. It is the dream of a man to make riches, to be someone, to see his sons succeed . . . all of which is predicated on complete self deception of one's true limits and capabilities.

Of course the play is much more, and holds a message for any man or woman who is a product of the harassed, industrial twentieth century. It rips off the mask of self deception, and behind the facade we find ourselves, our fathers, our friends, and Willy Loman.

No, Willy is more than a character in a play . . . he is the conscience of an age that has sacrificed happiness for material gain. Little wonder then that the playgoers find Willy so life like.

---

The small fry seem to be getting more literate these days, at least according to reports from the Daly City library.

Whereas last summer, the children's corner of the library was usually vacant, during the past two months there have been from two to ten children pouring over books on every topic from treasure to Tarzan.

This, we believe, is a good sign, although it probably has the comic book publishers wishing they were turning out thrillers for adults instead of tripe for thinkng ichildren.

---

In 1947 California was the leading State in the consumption of cement and ranked second to Pennsylvania in cement production.

## Vet Job Rights

(Continued from Page 1)

is able to obtain his release from active duty," Nixon said.

A considerable number of men who were in service during the last war and who are contemplating reenlistment also have written to Congressman Nixon expressing concern over the discontinuance of dependency benefits, he said.

"While it is true that no provision is presently made for dependency benefits," Nixon declared, "the military pay raise bill which was passed by Congress last year more than compensated for this loss."

### *Down With The Old Up With The New*

Workmen this week were removing wire from the old telephone and light poles on "top of the hill," preparatory to attaching them to he new mercury lumen light poles.

This is the first step in a project to remove all the older steel poles along the length of Mission.

When the new poles are installed, wire will be strung through their centers, thus doing away with the unsightly cross arms.

The new mercury lumen lights will be up the length of Mission street by the end of the summer.

## SSF Will Annex Land To North

Taking its first step toward expansion, the South San Francisco city council Tuesday night gave formal notice of proposed annexation of lands north of Buri Buri and an area north of the city limits between the Old Mission road and Hillside boulevard.

This will include 2,000 new homes for South City. Of these, 1,000 medium priced houses are on a 200 acre site between El Camino Real and Junipero Serra boulevard. Stonecrest brothers are building the homes.

The Standard Building company has already started work on a 140 acre area lying between the northwest city limits and extending to the Colma cemetery where another 1,000 homes will be constructed.

## Deer Herds Fed By State

When California's deer populations grow too numerous for the amount of forage food available to them, then local herd numbers must be controlled until the range improves.

Such is the formula which will guide the State's conservation administrators as the result of adoption of a 15-point deer management policy by the Fish and Game Commission.

With the general approval of organized sportsmen's groups, the U. S. Forst Service, farmers, cattlemen, and game managers, the Commission at its last monthly meeting put the stamp of approval on the plan designed to provide a gradually increased annual harvest of deer for California hunters.

By keeping local deer herds in line with their food supplies, the new program is expected to bring about healthier deer populations, less agricultural crop damage, higher survival rate of fawns, less starvation and susceptibility to disease, increased resistance to animal predators, and more economical use of the State's deer resource by the hunter harvest of deer which would ordinarily die of other causes.

The deer management guide, based on a three-year study conducted by the University of California, will also be an aid in preventing permanent damage to deer ranges by overbrowsing.

After consultation with local sportsman and landowner groups and a public meeting in the area affected, the policy will allow the Commission to declare a controlled hunting season on surplus deer of either sex where the need is evident. Control of deer predators and improvement of range conditions are also included in the outline.

Commission spokesmen emphasized that the new deer policy does not mean a general open season on doe deer, such as is practiced in some other states. The "either sex" provision of the policy will be invoked only after detailed study by joint game manager-sportsman-landowner groups proves such a shoot is in the best long-range interests of the deer herd.

## Sleep Costs $60

(Continued from Page 1)

opened the window to air out their home.

Going directly to the bedroom, the unidentified burglar removed two wallets containing the money from a bedroom dresser. The dresser was but a few feet from the sleeping Finlofs.

Nothing else in the house was disturbed, Finlof told police.

But the Finlofs have nothing over their "watch" dog. He, too, was sound asleep in the basement at the time of the burglary.

### *Wendling Working On Personnel Plan*

As his first major step as Daly City's new administrative officer, Orrin Wendling this week was drawing up plans for a city personnel system.

The operation is not new to Wendling, as he developed a similar plan for city employes of San Jose where he was employed for a brief time.

Details of the personnel program are not available at this time, although its purpose will be to assure a smoother working city government.

Wendling assumed the reorganization job after taking over the job of personnel clerk for the city. This position was held previously by Mrs. Evelyn Mosman, assistant to City Clerk B. C. Ross.

### *Errant Sportsmen Spend 1,689 Days In Jail*

California fish and game wardens caught up with an average of 17 violators each day during the first three months of the year, reads a report from the Division of Fish and Game.

The 90-day total of 1537 convictions saw errant sportsmen sentenced to spend a total of 1689 days in jail, and pay fines aggregating $49,883.

Anglers who violated various provisions of the Fish and Game Code relating to licenses, closed seasons, closed areas, and night fishing, accounted for a total of 271 cases. One hundred and sixty-nine abalone fishermen were apprehended during the first quarter.

When the California - Nevada boundary was surveyed, Alpine county was found to be in California, not Nevada as believed at that time.

---

The original California county of Branciforte, now Santa Cruz, was a Spanish pueblo founded in 1797.

**"WATCH THE BIRDIE"**—An Amazon parrot called Coco and an Indian parakeet known as Pepe perch on the camera of a Paris news photographer as he attempts to take pictures during a show sponsored by the League for Protection of Birds. The photographer felt that he was given a well-illustrated example of what the stock-in-trade expression "Watch the birdie" really can mean.

## Tunnel Entrance Thief Makes Haul

In one of the first tunnel entrance home burglaries reported here in many months, thieves stole a $90 phonograph from the house of Frank A. Anderson, 113 Alexander, Wednesday.

Entrance was gained to the residence by prying open a dining room window. In the home, the burglar went to the bedroom where he dumped the contents of a night stand and dresser on the bed.

Nothing was taken from the bedroom but 50 cents in pennies, Mrs. Anderson told police. The electric phonograph was lifted from the living room.

The theft took place between noon and 3 p. m. Wednesday while Mrs. Anderson was away from her home shopping.

Police Chief W. W. Sunderland reports that due to special precaution by his department this has been the first tunnel entrance burglary since spring.

Homes with this type of entrance are good "burglar bait," as the thief is hidden from the street while he works.

## Funds Seen For Bayshore Job

Widening of Bayshore highway from the San Francisco county line to Geneva is back in favor with the highway commission today.

Wednesday the commission indicated it would take up the measure at its July 27 meeting. At that time Highway Commission Chairman Charles H. Purcell said he would go on record favoring the $350,000 project.

Purcell said he would recommend the widening of the highway from four to six lanes.

This follows by a week a vigorous protest by San Mateo county officials to the shelving of the matter by the commission.

Chief use of bromine is in the manufacture of ethylene dibromide, which is used in tetraethyl lead for ethyl gasoline.

## Caridis Recovering From Rodeo Injury

George Caridis, 34, brother of Mary Mitchell and former bartender for The Colonial, 6192 Mission, is recovering today from injuries he received in a San Jose rodeo June 4.

He was riding in the rodeo, and had roped a steer when the rope caught in the legs of his horse. A moment later he fell to the ground with the horse on top of him. In trying to regain its feet, the animal severely injured George's head.

Rushed to Franklin hospital, George was treated for a head concussion. He remained there a month and returned to his San Francisco home, 128 Sadowa, on July 4.

Although still unable to receive visitors, George is recovering, and will be back in circulation in two or three months.

His sister reports that while George has been riding horses for the past 20 years, she thinks he may now give up that type of recreation.

# PLAYGROUND

## "Tiny Tots" Field To Be Constructed For Pre-School Broadmoor Children

Broadmoor's "tiny tots" are to have a playground early in August.

Plans for the pre-school age playfield were disclosed at the regular meeting of the Broadmoor Property Owners Association last Thursday.

The site for the playground is to be the Broadmoor Community Center, 87th and White. There will be an assortment of equipment for the small fry from sand boxes to swings.

Tom Jenkins, association president, said he hopes the grounds will be ready for use in a month.

Earlier plans for a tot's playground had to be shelved when residents in the area where the field was to be situated objected to a group of children near their homes.

Another topic of interest Thursday night was the discussion of the present erosion problem at the north end of Sweetwood drive.

The Association drafted a resolution to see that the hill behind 1671 and 1675 Sweetwood is graded to prevent any further erosion.

The resolution and letters of explanation, have been sent to the county board of supervisors and planning commission, as well as the Stoneson Brothers, builders of Broadmoor.

It is expected that prompt action will follow to correct the hillside menace, Jenkins said.

Also at the meeting a report was heard from an official of the AAA in which he advised against putting up signs on Broadmoor streets warning motorists of children at play. He said the signs were a great traffic hazard and not effective.

The Association then called for another report — to be made at the next meeting — on what can be done to protect children in the area. Until then, police have been alerted to watch certain danger areas, and letters are going out to parents in those districts advising them of the traffic hazard.

Manganese ranks twelfth in abundance among the elements of the outer crust of the earth.

## Lutheran Bible School Closes

Lutheran Church of Broadmoor, which is conducting its summer Vacation Bible School with West Portal Lutheran Church, will hold its closing program this Friday evening at 7:30 p.m.

It will be held at West Portal Lutheran Church, Sloat boulevard near 19th avenue. All children and their parents and friends are invited.

Included in the program will be songs and verses which the children learned during the past two-week period, exhibition of the handicraft projects, preceded by a brief devotional service. Refreshments are to be served in the parish hall.

The church will hold its seventh service Sunday in the series on the Ten Commandments. The sermon at Broadmoor Recreation Center, White street near 87th street, will be on the Commandment, "Thou shalt not steal."

The questions which will be discussed include, "How wrong is gambling," "What about not returning borrowed articles," "Who is a thief in God's Sight," etc. The public is invited.

## Fleet Reserve Auxiliary Meets

Members of the Fleet Reserve Association Auxiliary Unit No. 48 held a luncheon meeting last Thursday, July 6, at the home of Mrs. Marge Cowart, 1736 Lovaine drive.

Co-hostess of the day was Mrs. Gladys Holt, 114 Garden lane.

After lunch, the women played several canasta and whist games.

Prizes were given the winners in each game. Mrs. Caroline Miller and Mrs. Barbara Stinson were tops in canasta, while Mrs. Catherine O'Strander and Mrs. Lydia Pierie took honors in whist.

## COLMA --- BROADMOOR GARDEN VILLAGE

## BROADMOOR PRESBYTERIAN CHURCH BUILDING FUND NOW AVAILABLE

Most of the funds for a proposed $50,000 educational building for the Broadmoor Grace Presbyterian church are now available. The Rev. John Glasse announced today.

Word was received this week from the Presbyterian Board of National Missions that they will give $35,000 toward the construction of the three floor stucco building.

Other funds now have to be raised throughout the community, Rev. Glasse said.

He could give no date as to when construction will begin, although it will be in the near future.

The building, to be built on land adjacent to the present church, will house the Sunday school classes, young people's activities, and generally be a social hall for the community at large.

"We are aware that the greatest need in Broadmoor now is for adequate facilities for the younger children. That is why we think the construction of the educational building should come before any other church building," Rev. Glass explained.

Eventually, the Broadmoor church will include, in addition to the educational building, playgrounds and a new sanctuary.

Plans for the new structure are complete and have been drawn up by San Francisco architect Donald Powers Smith. They call for a modern design with plenty of window space, and rooms large enough for a variety of activities.

## Colma Baptist Church To Hold Fellowship Hour

Fellowship Night will be observed at the Colma Baptist church this Sunday evening, The Rev. Rains Calvin said today.

The hour will begin at 6 p.m. with a pot-luck supper to be followed by an hour of fellowship.

The supper and meeting is to be held in the Colma Community center, Dunks street. Church members and their friends are cordially invited to attend.

Mrs. Serena Browning, 864 Beechwood drive, is chairman for the fellowship night.

Meanwhile, the public is invited to regular Baptist services at 11 a.m. Sunday. Sunday school is open to all children, and starts at 9:45.

## VFW Auxiliary Plays Canasta

Canasta was the order of the day last Friday for members and friends of Lake Merced VFW Auxiliary No. 9921.

The party was held in the home of Mrs. James Holt, 114 Garden lane. All money from the event is to be used by the Auxiliary for the purchase of a new flag.

Mrs. Nelly Krawetz and Mrs. Betty Brunner took top honors in Friday's game.

Mrs. Holt extended the thanks of the Auxiliary to the El Broadmoor Beauty Salon for a gift to the ladies.

Meanwhile, July 7, three members of the Auxiliary were active at the Veterans Hospital in Palo Alto. Entertaining the hospitalized vets were Mesdames Holt, Stella Magoon and Marge Cowart.

## Jay Jensen Heads Colma Planning Commission

Jay Jensen, Olivet Memorial Park official, is the chairman today of Colma's first full-time planning commission.

The appointment was made at an organizational meeting of the group Monday evening.

Other officers chosen include: Ray Smith, vice-chairman, and Bradford Welch, secretary.

A brief discussion was held as to what the commission hopes to accomplish in beautifying and zoning Colma.

The new organization will meet once a month to discuss various problems and advise the Colma city council.

Other members of the seven-man board are: Earl Taylor, Kenneth Martin, John Newton and Russell Antrocli.

## Feted By Friends, Colma Couple Observe Fiftieth Wedding Anniversary

Mr. and Mrs. Mattrup Jensen of Colma have been feted at a series of parties celebrating their fiftieth wedding anniversary.

Friday evening, July 7, Bethel No. 198, Job's Daughters of Daly City, surprised the Jensens with a reception at the Masonic Temple.

On Sunday, July 9, members of the immediate family gathered at the Jensen home for a dinner party.

Those present were Mr. and Mrs. M. Jay Jensen of Colma, Mr. and Mrs. Robert Jensen and son Robert Jr. of Willits, Mr. and Mrs. G. W. Gohl and daughters Joanne and Paula of Burlingame, Mr. and Mrs. C. B. Nelson and daughter Betty of San Francisco, Mr. and Mrs. Jack Whipple and son John and daughter Ellen of Burlingame, and Paul C. Olson of Colma.

Monday evening, July 10, a group of old friends held a surprise party at the Jensen home.

Those attending were Mr. and Mrs. C. V. Henry of Porterville, Mr. and Mrs. Ed Monsees of Burlingame, Mr. and Mrs. Carl Thompson of San Bruno, Mr. and Mrs. Findley, Johnstone and Bowen of San Francisco.

Mr. and Mrs. Jensen were married fifty years ago on July 12, at Elyria, Ohio, and have been residents of San Mateo county for 47 years.

## County Fire Service Discussed

The possibility of turning the county fire department over to the state was discussed at a recent meeting of the San Mateo county board of supervisors.

Supervisors agreed to call in Fire Warden Bert Werder for discussions on this point, and upon his request for additional firemen in line with a previously established policy of cutting hours of the firemen from 105 to 72 hours per week.

Several board members declared that the populated, unincorporated areas should not expect the county to provide them a free fire protection service, and should organize their own fire districts for this purpose. Sharp Park and Half Moon Bay were presented as examples.

District Attorney Louis Dematteis said that the unincorporated areas have no legal right to expect fire protection from the county.

## Letter to the Editor

### Let's All Turn Out For Sun. All Star Game

Editor:

Please allow me to congratulate Milton Tromborg on the very timely, and wonderful article in your recent issue of the Record relative to the Jefferson High baseball team capturing the PAL title and having two of their boys — Lunghi and Cereghino — selected for the All-Star game Sunday, July 23, at Seal Stadium.

There is not much one could add to the very deserving send-off given the two boys from Jeff.

I had the good luck of being able to witness Coach Glen South's team play a couple of games this season, and he sure had the boys playing a bang-up game. He has two or three other youngsters who are bound to be heard from before very long.

Now wouldn't it be great to have one of our Daly City boys selected for the All-Star game at the Polo grounds?

This is possible, and just what some of us fans have been looking forward to.

Let's all get out and back up the boys by turning out at Seal Stadium this Sunday.

Edmund Cavegnaro

## Broadmoor Legion Post, Auxiliary Heads Installed

At a joint installation held Wednesday night, officers of Broadmoor American Legion Post No. 824 and Auxiliary took office.

Alyce Bird is the new president of the Auxiliary, while John Travinsky is to be in command of the Post.

The ceremonies were held in Colma's Colombo Hall. Guests present included: Juanita Henderson, president of the twenty-sixth district, who acted as installing officer; Leslie Hansen, twenty-sixth district president elect, who acted as sgt.-at-arms; Helen Berryesson, deputy marshal and mother of the Broadmoor unit; Jessie Vant, past district president.

Also, at the installation Mrs. Bird announced new chairmen heads for the coming year for the auxiliary. They are Mesdames: Evelyn Toschi, education and Americanism; Pat Appleby, child welfare; Peggy Merchant, community service, poppies publicity; Cleo Chesky, drill team; Alice Bird, girls state, national security; Helen Holman, historian; Helen Richardson, junior activities; Melanie Fernakies, legislation; Kay Logan, membership; Kate Flanagan, rehabilitation, patient's welfare.

## BAYSHORE VISITACION VALLEY

By Bernice Hendryx JUniper 4-6449

Henry W. Hermansen, son of Mr. and Mrs. Villy Hermansen, was married at 2:30 last Saturday afternoon at the Central Methodist Church at 14th and Market. The bride was Joann Zolman, daughter of Mr. and Mrs. Basge, residents of Midway Village. The reception was at the Administration building in Midway Village, with sixty guests present.

Henry just started to work on his job, so their honeymoon was a brief trip to Santa Cruz. Thirteen year old Dagmar Madsen, friend of the family, caught the bridal bouquet, and has been starry eyed ever since.

Some of our Girl Scouts from the valley are at Camp Wasibo, near Felton, for a two-week vacation. The program is active, and the youngsters are kept busy and happy. Homesickness doesn't set in until the sun goes down.

Lonnie Higgins is working in Davenport, right out of Santa Cruz, for a few weeks, so Rachel is a week-day widow. There is a plan afoot for Rachel and the children to spend a week end with him at the beach. Hope it works.

**Operation**

John Shere was operated on last Monday, and a growth removed from his ankle. He will be back at the same old stand in a few days, but at last report, he wasn't chaffing at the delay. He is catching up with his pinochle playing, and the nurses keep him in eight or nine pots of coffee a day. What a miserable existence! The only big problem he has is whether he should shave in the evening, or in the morning. All for the benefit of the little woman of course. Better bring him home Hazel. He's enjoying poor health.

The Mr. and Mrs. picnic went off on schedule last Sunday at Marsh Creek, with a good time for all. A nice pool and pony rides kept the kids busy, and the grown-ups relaxed and enjoyed themselves.

The B. Fords have a full house for a few days. Jessie's sister, Mrs. Clara Wise, son Paul, with his wife and daughter, are visiting from Memphis, Tennessee. Bert's and Jessie's son's wife and two children are also there, but the son is on duty in North Carolina, courtesy of the U.S. Marines.

**Fire**

We had a fire last week that frightened many of the Project people. They saw smoke rising, and some of the Project houses along Schwerin street got it from an angle. Looked as though one of the housing units was afire. Turned out to be a grass fire on PG&E property, but gave them quite a turn.

We are losing another active man in Bayshore. E. H. Megel, current clerk of our Diamond Public Utilities water board, is moving to the peninsula. Mr. Megel is a big wheel in the new PiP Shampoo company, the same ones that built that pretty little manufacturing building along Bayshore Highway at South San Francisco. Sorry to see you go E. H.

**Camping**

The J. Armas family spent a week in Nevada, camping. The mosquitoes chased them from one site to another, so they went civilized again by taking in the Reno night spots. We haven't found out whether anything chased them in Reno or not.

Our new fire commish, Don Vallero, is a member of the Kiwanis Club. He pulled strings, and the outcome of it was a ten-day vacation, with all expenses paid, for two of our valley boys and camp. Jackie Armas and Manuel Silva were the two who went, and the club even sent script books up there so that the boys had money to draw from. A very nice gesture, Don, and our hats are off to the Kiwanis.

**Camp Opens**

The summer camp of the Bayshore Baptist Church, at Mount Herman, will open this Sunday. They have twenty-eight people from the valley going, and believe me, the place is an ideal vacation spot. Right out of Felton, in the Santa Cruz mountains, and near Santa Cruz. Any of you who would like to send your youngsters up, or go yourself, can call Reverend Widenham for information. A week up there will run fourteen fifty, or seventeen fifty apiece, depending on age, I think.

The Vacation Bible School will have its closing night Friday. All parents are invited, and the youngsters will display their handwork, and demonstrate what they have been working on. It will be at seven-thirty, and a program will be given.

## "Caravaners" Now Broadmoor Church Summer Guests

Five "Caravaners" this week were making a house-to-house survey of Westlake and the newer sections of Broadmoor, seeking to learn the religious affiliation of Protestants only.

The young people are now guests of the Broadmoor Community Presbyterian church. They are a group from 300 young college people from all over the United States who give their summer time to various churches to which they may be assigned.

The Rev. John Glasse feels sure the people of the community will match the friendly spirit of these fine young people when they make their brief calls.

Another Caravaner project will be to conduct a "stay-at-home" young people's conference from 4 to 9 p.m. on the four days of July 24 to 27 inclusive for all 7th and 8th grade and high school young people of the community interested to attend.

Under the direction of the Caravaners and local church youth leaders those attending will do together a lot of things usually enjoyed at summer conferences, including recreation and the "eats."

Each day will include recreation, discussion, devotions and, of course, the evening meal. The Men's Fellowship will provide one meal, the Sunday school teacher another, and the others will come from parents of the young people.

On Friday evening, July 28, a concluding meeting will be held, to which all adults will be welcomed to hear a summary of the Caravaner activities and of the church's plans for further youth programs.

## WESTLAKE WHIRL

by Marian Christians PLaza 5-0946

Baby girls seem to have a priority on the new arrival department in Westlake this week.

Mr. and Mrs. Gros-de-Mange of 83 Westdale are happy to announce the arrival of their third daughter, Joan Marie. She was born July 10 at St. Mary's Help hospital, and came into the world weighing 7 pounds 5 ounces.

Joan's two sisters are Nancy and Carol.

---

Mr. and Mrs. Walter Kinne, 65 Westdale avenue, welcomed their first baby, a girl, weighing 6 pounds 15 ounces on July 6 at the University of California hospital. She has been named Barbara Marie.

---

Everyone was sorry to learn that little Diane Bei, daughter of Mr. and Mrs. Reno Bei, was severely burned by boiling water this week.

Diane is in St. Francis Hospital, in a critical condition.

Mr. Bei was at Ft. Lewis, Washington, on a two-week tour of duty when the accident occurred. He rushed home to be with his family.

We surely hope Diane's recovery will be as rapid as possible.

---

Mr. and Mrs. Edward B. Smith, 193 Wilshire avenue, this week welcomed their first new addition to the family.

He is Scott Bradford Smith, born at 11:11 a.m. Thursday, July 13, at St. Mary's hospital.

The baby boy came into the world weighing 7 pounds 1 ounce.

## New School Plans Under Discussion

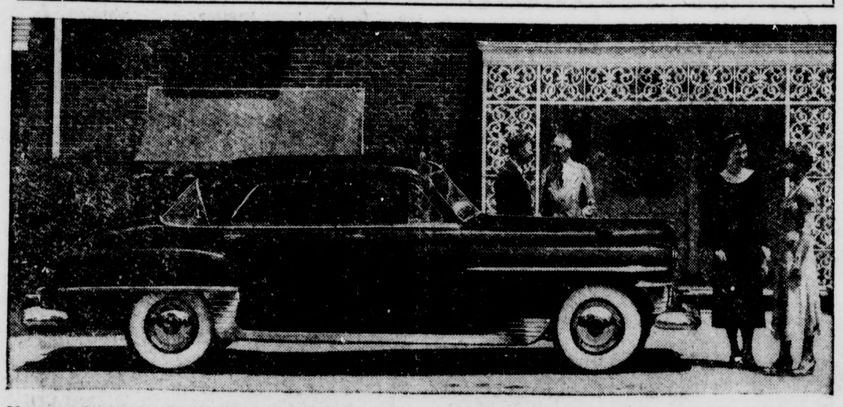
Speeding plans to end double school sessions, city officials, school board members and officials of the Westlake Improvement Association held a joint meeting Monday night.

The problem was thoroughly discussed, and some official action is anticipated at the regular meeting of the Jefferson elementary school board Thursday, July 27.

With the school enrollment expected to double by the end of next year, the problem of "swing shift" education must be solved immediately, James Snell, school superintendent, asserted.

It is hoped that work can begin on new schools both in Westlake and Daly City before mid fall. Presently, work is progressing on the first unit of a new school in the Colma area.

NEW CHRYSLER IMPERIAL



Newest addition to the Chrysler line is the luxury-styled Imperial sedan shown here. The long, low appearance of the new model is accentuated by the massive wrap-around "Clearbac" rear window, first introduced in the Chrysler Division's "hardtop" models. Rich interiors combine with stylish body lines to give the car special distinction among 6-passenger sedans.

Here's POWER that hits home...

"Job-Rated" POWER

YOU GET IT ONLY IN DODGE TRUCKS

Power that's right for your job!

Your Dodge truck will have plenty of power—and then some! Each Dodge engine is a high-efficiency engine — "Job-Rated" to provide ample power for the weight range of the model in which it's used. To give you this "Job-Rated" power, Dodge makes available 8 different truck engines.

# SOCIETY

## CCPT Plans "R" Project For State And Local PTA's

Well over a thousand study groups on the elementary school curricula better known as the 'Three R's' project, are being planned for next fall all over this State.

This announcement was made by Mrs. Ralph S. Dow, school education chairman of the California Congress of Parents and Teachers, at the midsummer session of the Board of Managers, meeting this week at the Clark Hotel, Los Angeles. Mrs. Edward T. Walker, newly elected president of the Congress, presided over the meeting. The project, which is sponsored by the C.C.P.T. will provide parents with an opportunity to study and evaluate present day teaching methods.

Because the attention of the nation and of the State of California is being directed to the field of mental health by the White House Conference, the Board of Managers voted to promote a mental health study program. This program will be made available for district use and distribution. Mrs. Waldron Hyatt, health director of the Congress, indicated this study would receive the major attention of the entire health department, in the hope of helping the thousands in our communities who are living under nervous tensions and emotional strains which are a threat to their happiness and security.

Mrs. Marvin Owen of Los Angeles will be the general chairman of the 1951 State convention in San Diego on May 2, 3, 4. Serving with her as program chairman will be Mrs. P. D. Bevil of Sacramento. Hostess district president is Mrs. G. D. Edwards and chairman of local arrangements, Mrs. Harold R. Hartley, both of San Diego.

Twenty-eight new student loans were granted and eight renewals, totalling $14,700. Of this number, 20 plan to enter the teaching field, three the medical and two the nursing professions, according to Mrs. Eugene Baker, reporting on this project.

An informal survey or poll of opinion on the initiative measure repealing the personal property tax as it affects local school finance, will be conducted in each of the more than 3,000 communities of this State. Mrs. Wm. B. McKesson, in making the proposal, pointed out that one half of the support of local schools comes from property tax. "If this tax is [illegible] another source of revenue will have to take its place, particularly in the face of rising school populations. In order to reach a wider area of agreement which is needed to make P.T.A. more effective, this survey is being conducted," said Mrs. McKesson.

### *Trio Answer Colonial Robbery Charge July 27*

The three men charged with last Monday's $300 robbery of the Colonial, Junipero Serra boulevard, will have a preliminary hearing Thursday, July 27.

The hearing will be before Justice Rudolph Rapsey, South San Francisco, at 11 a.m.

Earlier, the three were arraigned before Justice of the Peace Edward I. McAuliffe in Redwood City.

Charged are: Stephen Kelly, 28; Sam C. Houston, 26; Walter S. Hahn, 21; all of San Francisco.

## PTA President Warns Of Shoe Store X-Ray

Have you ever walked into a shoe store to have your child properly "shod" — only to walk out again because the store was not equipped with a fluoroscope machine?

If so, you have been doing the youngster an injustice. In this respect, Mrs. Henry Adami, Woodrow Wilson Primary PTA president, calls attention to a recent study made by the California Department of Health and reviewed in its organ, "California's Health." It has been determined that fluoroscope X-ray machines, used by retail shoe stores for the purpose of fitting shoes, may present radiation hazards if not operated under proper safeguards. There is potential danger from radiation, both to your child and to the shoe clerk, unless regulations for the operation of these machines are strictly observed.

Most X-ray machines are housed in a cabinet and an aluminum filter is used in the machine to control the dosage before it passes into the foot. Automatic controls are used for time and exposure. However, the survey by the State Dept. of Health reveals that in some instances this protective aluminum screen was removed to get a brighter picture of the foot and the intensity control was increased so that children sometimes received a flow of X-ray actually intended for adults. Sometimes exposure is increased so that the clerk, child and parent all view the fitting for a longer period of time. Clerks have been observed to put their hands into the path of the beam to "feel" the fit.

Even with perfect operation, a child may be exposed to repeated doses of radiation as the parent goes from one store to another—each with a machine. Even if each dose is within the acceptable limit, the total received over a year or more may be greater than the amount which could be tolerated safely. X-ray overdosage to any part of the body may produce radiation burns of the skin, leukemia, various types of anemia, chronic radiation poisoning and — especially in young children — damage to the growing bone. This latter effect may not be apparent for a number of years.

It is contended that a good shoe salesman can prescribe a well-fitting shoe to a child or adult without resorting to the X-ray machine. H. K. Abrams, chief, Bureau of Adult Health, author of this article, reminds us that the effects of radiation are cumulative. In view of the possible necessity of X-ray for medical purposes, it is questionable whether the body should be exposed to "nonessential" radiation, such as that used in shoe X-ray.

Public demand for the machine has been the main reason for its installation. The Department of Health wishes the hazards of the use of X-ray in this unessential manner brought to public attention, in order to discourage demand for the use of the machines. Mrs. Adami adds her word of caution to primary mothers, especially, since theirs are the youngsters whose shoes must be replaced most often. Try to rely on your own good judgment and that of the clerk when you "shoe" your child next month in preparation for school's opening.

## Troop 249 Scouts Receive Awards; Events Planned

Five scouts were awarded their second class badges in the presence of their parents and friends at last Thursday's meeting of Troop 249 held at Bellevue hall.

The boys' mothers pinned the badges on their sons and in turn received miniature replicas of the second class pins.

The boys receiving the second class awards were Michael Dotterweich, Hermann Pelz, Donald Pennington, Richard McArdle, and Michael Traxler.

Donald Parshall and Charles Derham went before the Board of Review and received their second class badges at Camp Royaneh during the first camping session.

Preston Brown was awarded his Tenderfoot badge at last week's meeting.

The members of Troop 249 visited the Golden State Creamery during a recent meeting and learned some of the fine points of ice cream manufacturing, as well as sampling the wares.

Members of the Troop Committee, including Orin Wakefield, Bert McKenna, George Neuner, and Dick Traxler, furnished transportation.

Last Saturday a group of seven scouts, including Hermann Pelz, Michael Dotterweich, Larry Neuner, Bert McKenna, Richard McArdle, Darrel Hutchinson, and Michael Traxler, left for a two-week session at Camp Royaneh.

Sunday, July 23, is Visitors Day at the camp. Parents and friends are invited to attend a barbecue between 12 and 2 p.m. and see how the camp is run.

Thursday, July 27, is Tim-Buc-Too Day at Royaneh. The boys will dress in 49er garb and prizes will be awarded for the best costumes. Parents and friends are invited to attend in costume. A barbecue will be served and there will be a talent program, stunts and games.

The Troop 249 Mothers Club reports that the benefit whist held last week at General Pershing School was very successful. Mrs. Orin Wakefield, president of the group, was chairman of the event. Home made cake and coffee was served after the play. The proceeds of the whist were turned over to George Neuner, secretary-treasurer of the troop committee, to be used to purchase scouting equipment for the troop.

The Mothers Club wishes to thank all the merchants who so generously donated prizes for the event.

## DAY OF PRAYER

***Rev. R. G. Konzelman***

In view of the critical world situation, the Lutheran Church of Our Savior, Garfield and Junipero Serra boulevard, will on Sunday, July 23, observe a special day of prayer for:

"An honorable and enduring peace if it be God's will at this time;

"Those in authority that God inspire them with wisdom and understanding, that their decisions be in accordance with God's will and to the benefit of our nation and of mankind in general;

"The preservation of our nation and our cherished freedoms, especially the liberty to worship God without let or hindrance;

"For our Armed Forces and for a God pleasing solution to all problems pressing upon the conscience and mind, for strength and courage, faith and hope, for loved ones and for delivery from all evil."

Following the regular morning services at 11 a.m., at which time the Rev. Robert G. Konzelman, B.D., will deliver the sermon, the church will remain open throughout the day, so that members and friends may enter at any time for private prayer. Each hour on the hour the pastor will intone prayers on behalf of the congregation.

The Day of Prayer will conclude with a Special Evening Service at 7:30, with final group prayers, at which time the choir will lead in the singing of "The Litany." The Rev. Werner Gamb, pastor of Faith Lutheran Church in Oakland, will bring the message for the evening.

A cordial welcome is extended the residents of Daly City to attend these formal services, and also to feel free to come to the chapel and offer private prayers anytime on this Day of Prayer. For further particulars, kindly phone JU 4-8501 or JU 4-0293.

## FOE Auxiliary Welcomes Five New Members

By Dorothy Johnson

Several new members were initiated into the Ladies Auxiliary of the Colma Vista Grande Aerie No. 1848, FOE, at the last regular meeting July 11.

The new members include: Evelyn Webb, Florence Cerko, Helene Allen, Lesle Grisel and Hazel Stevens.

Mrs. Agatha Heyden, program chirman, was in charge of the entertainment. This was her last official act before leaving on her vacation to canyons.

Singing two of the favorite songs of the president, Lorene Gardner, were two lovely daughters of a member. Ruth Quickert entertained beautifully. Christine sang "My Happiness" and "Forever and Ever," accompanied by Alice on the Miramba.

A fashion show was planned for the benefit of the drill team and the proceeds will go to the promised uniforms.

Hospitality Chairman Margaret Florence and a committee consisting of Thelma Ferretti, May Baker, Aileen DeBano, Terry Ferguson, Dolly Davison, Leona Denton, Dorothy Carrington, Louise Espinosa, Alice Christen, Bonnie Ellenwood and Madeline Fellows served refreshments.

Tables were decorated by Edrie Summers and Edna Mona in the Fourth of July colors and background.

## PTA Official Warns "Drive Safely!"

Safety Week has been proclaimed by the President of the United States from July 23 to July 29.

With everyone taking vacations, General Pershing PTA Safety Chairman Mrs. M. E. Nenstiel wishes to advise everyone to be doubly careful so that in the fall we all met together again.

Figures for the preceding years, and 1949 show that 6,500 farm residents were killed by accidents involving motor vehicles. As you are passing through these towns, won't you please take time to observe their safety regulations.

There is a weekly safety program sponsored by the San Mateo Safety Traffic commission. These programs are worth your listening too. The next ones include: July 23, "Operation Safety" and July 30, "Vacation Motoring."

Let's all drive carefully, and meet in the fall.

## Annual Novena Being Conducted

Conducting the annual Novena at St. Peter's church, 24th and Alabama streets, this week is The Rev. Parnell McCarthy of the Diocesan Mission Band.

The Novena, which began Tuesday and will be held through Wednesday, July 26, is in honor of St. Anne.

Masses are at 6:30, 7:30 and 9 a.m. Services are at 3:30 and 7:30 p.m.

This is the most important Novena of the year for the parish, and a large number of people are expected to attend. The public is invited to take part in the services.

San Jose, Santa Clara county seat since 1850, was the first city in California to incorporate.

**DOLL INTERESTS CHILDREN**—Even the boys show interest as one of the girls of the Foster Parents' Plan for War Children in Athens, Greece, receives a doll from America. The Greek kids were given clothing and food also, but the doll seemed to steal the show. It's a rare thing among the children, most of whom have had little time for playing games.

## Happy Birthdays!

Harry, the "happy baker," wishes the following local residents the best of everything on their coming birthdays:

July 21: Judy Giaziani, 28 San Pedro road; Mrs. William Buneman, 912 Washington; Mrs. William Reynolds, 169 Mateo.

July 22: Louis A. Sandoval, 322 Woolsey; Michael West, 478 Woodrow; J. Demattei, 169 First avenue; Joyce Eserini, 669 Miller avenue; Mary Faretti, 122 Moltke; A. Grampaoli, Rt. 1, Box 408, Colma; Mrs. Eva Taylor, 1019 Washington.

July 23: Katherine S. Toner, 7217 Mission; Joseph A. Toner, 7217 Mission.

July 24: Mrs. P. Maffei, 66 Market; J. Demattei, 169 First avenue.

July 25: Alice Settrini, Box 356, Colma.

July 27: Michael Stanley, 343 Citrus; Mrs. Ray Calderon, 158 Los Olivos.

## New Arrivals

To the wife of Lawrence W. Phillips, 503 MacArthur drive, June 29, a daughter.

To the wife of Henry Gross, 66 Lake Forest drive, July 12, a daughter.

To the wife of Archie Stewart Helmer, 772 Maddux drive, July 10, a son.

To the wife of Albert C. Simonds, 2 Hilarita Circle, July 10, a daughter.

To the wife of E. Richard Grosde-Mange, 83 Westdale avenue, July 10, a daughter.

## Auxiliary Appoints State Delegates

At a recent meeting of Daly City Post No. 410, American Legion Auxiliary, delegates were appointed to the state convention in Sacramento.

The convention is to be held August 14 to August 16, and is for the purpose of gathering information and ideas from all Auxiliary groups throughout California.

Delegates include: Minnie Bernardi, Naomi Murphy, Marge Kenney, Leslie Hansen. Alternates are: Mary Gilbert, Olga Bordson, Margaret Rector and Alice Forte.

## YOUR DALY CITY GARDEN CLUB NEWS

By ELSIE M. GARRISON

**(Ed. Note: While Mrs. Garrison is on vacation her column has been taken over by S. W. Mollette.)**

I chose to call planting and care of lawns to your attention at this time, as we are having so many new homes and neighbors which will call for the planting of new lawns.

Also, the established lawns generally need summer conditioning.

A lawn is one of the most important plantings, and the basic permanent addition in the landscaping of your yard. Many lawns surrounding English manor houses were planted 500 yars ago, and today this fine quality turf is an inspiration to all gardners. Nothing adds, or detracts more from the home than your lawn.

**Preparation**

In the establishment of new lawns, adequate proparation of the soil before planting is most essential. Fortunately in Daly City most of our soil is sandy, which will aid in our drainage problem and makes the soil easy to work.

Remove approximately six inches of top soil and add a layer of peat moss. Then mix the soil you have removed and add to a depth of about three inches. The additional three inches of top soil mix with humus.

Humus may be obtained from commercial mushroom growers This is discarded mushroom bed fertilizer composed of stable manure and soil. If this is not obtainable use well-rotted manure.

The amount of humus necessary should equal enough to cover the lawn area one inch deep. Pulverize all clods, or lumps which have formed and level into place with a rake.

**Watering**

Don't be impatient to plant Give the soil a good watering regularly for at least two weeks. This will give all the weeds a chance to grow, and they may be removed easily before the grass is planted.

After two weeks fork the soil over down to three inches, get out the weeds and choose the seeds.

First, don't buy two much seed as lawns are more troubled by too many seeds than too little. One pound of good lawn grass seed is plenty to plant 150 to 250 square feet.

Most of the best lawns are composed of a mixture of grass which is more adaptable and flexible than a single variety of grass which may not grow well.

The mixture depends on what use your lawn will be put to. Fine textured grass may make a beautiful lawn, but it will stand very little traffic, where a grass of course texture will stand heavy play by children.

There is a variety of grass which will do well in shady exposures, but will require more fertilizer and care. Your choice of mixture should depend, therefore, on the amount of sunshine, shade and traffic your lawn will need.

**Planting**

Now for planting which fortunately can be accomplished here most any month, but during the cold rainy months the development is slower and will demand more care.

Here is my method of planting the seed so as to get an even distribution over the lawn plot:

Divide the plot in four equal parts, and divide your seed in eight equal parts.

Using one-eighth of the seed, spread by hand in one direction as evenly as possible over one-quarter area to be planted.

Now, use the next one-eighth part over the same area spreading the seed in the opposite direction.

Repeat this in the three remaining areas, and your seed is distributed.

Cover the seed lightly as possible (one-eighth of an inch) by using a light chopping motion instead of the usual back and forth movement.

After chopping, screen humus through one-half inch mesh, and spread thinly, barely covering the surface.

**Lawn Care**

During the days that follow do not let your lawn surface dry out either by sun, or wind. Sprinkle lightly and often using a fine spray nozzle so the water will fall gently instead of washing the seed in bunches.

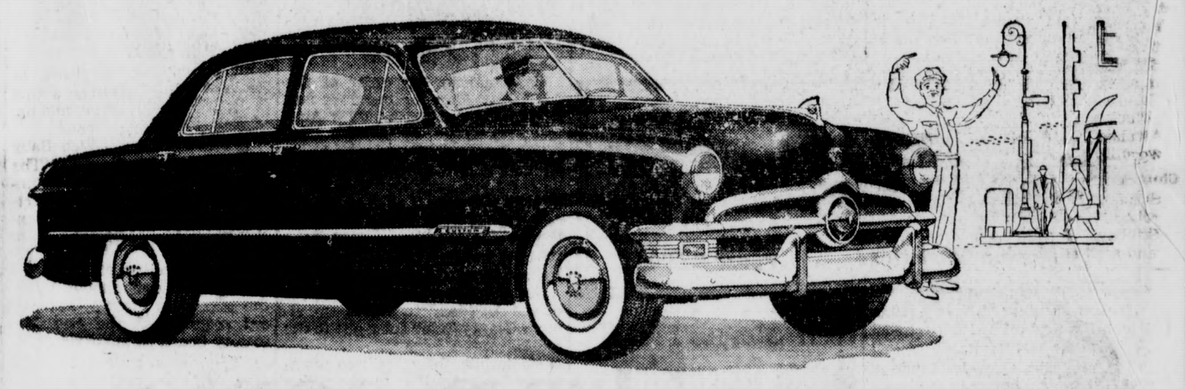
On slanting surfaces spray very lightly over and over, so the seed will not wash down hill. I prefer through dry weather to sprinkle both night and morning. Be certain to continue this until the lawn is up and established.

Next week we will speak of keeping up the lawn.

## POLIO PRECAUTIONS

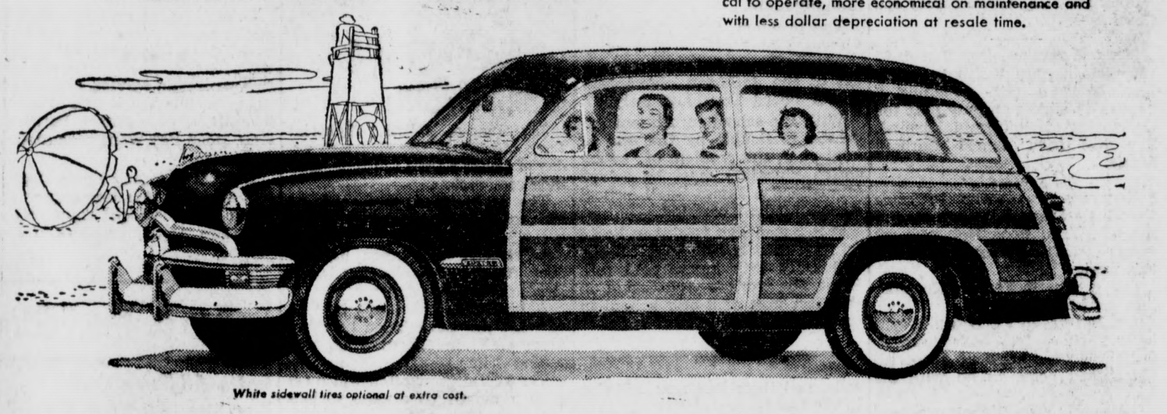
**RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS**

**WHEN POLIO IS AROUND, the National Foundation for Infantile Paralysis recommends these simple precautions: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay too long in cold water or sit around in wet clothes. And always wash hands before eating. Watch for feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. Call your doctor and then, if help is needed contact the National Foundation Chapter in your area.**



# Ask the folks

**Over 250,000 families** have already discovered that two Fords cost little more to buy and little more to operate than one higher priced car. One big reason is that now the family driving mileage is divided between two more economical cars . . . more economical to operate, more economical on maintenance and with less dollar depreciation at resale time.



White sidewall tires optional at extra cost.

# who own 2 Fords-

*they cost so little to own*

**Remember, too**—only Ford in its field offers you a choice of V-8 engine—the kind of engine used in America's costliest cars—or its quality companion, the "Six." Only Ford offers you the road-hugging steadiness of a "Mid Ship" Ride, the extra comfort of Sofa-Wide seats, the "sound-conditioned" quiet of the rugged "Lifeguard" Body. Yes, from start to finish, Ford spells quality—with savings.

Come in for a Test Drive?

**Wednesday, 8 p.m.** — Daly City Sportswomen's Club.
**Monday, 7 p.m.** — Whist, Hillcrest Circle No. 143, Masonic temple.
**Tuesday, 2 p.m.** — Whist game, Ladies' Home Club, Werner avenue clubhouse.

# What's Doing In Recreation

By Elman Rose

**Special Events:**
Pet show at Jefferson High school Friday, July 28, at 10 a.m.
Amateur hour, Friday, July 21, Jefferson High school auditorium, 10 a.m.

**Outing**
Roller skating party at Skateland in San Francisco Wednesday, July 26, 11 a.m. Sign up at playground.

**Tournaments**
City-wide baseball free throw tournament at Lincoln playground, Friday, July 28, 1:30 p.m.
City-wide paddle handball tournament at Jefferson elementary playground Friday, July 21, 1:30 p.m.

**Free Movies**
"Driftwood" and the serial "The Painted Stallion" at Jefferson High school Monday, 9:30 and 11:30 a.m.; Bellevue Hall Monday at 2:30 p.m.

**Baseball**
Boys — Tuesday and Thursday, 10 to 12 at Jeff High school.
Adult — Marchbanks Park at noon and 2 p.m. Sundays.

**Softball**
Men — see sports page for details.
Girls — Tuesday and Thursday, 3 to 5 p.m. at Jefferson High school.

**Folk Dancing**
Adults: Beginners Friday, 8:15 p.m. Bellevue hall. Intermediates, Thursday, 8:15 p.m., Castle hall.
Teen-age: Monday, 8 p.m., Bellevue hall; Tuesday, 7 to 9 p.m., Castle hall.
Youngsters: Beginners, Tuesday and Thursday, 10 to 11 a.m., Jefferson High school; Intermediates, 1 to 2:30 p.m. at high school.

**Badminton**
Wednesday, 7 to 9:30 p.m. at high school gym.

**Game Room**
Monday through Friday at high school from 7 to 9 p.m.

**Teen-Age Dance**
Friday, 7:30 to 10:30 p.m. at Castle hall.

**Band**
For adults and teen-agers, Tuesday, 8 to 10 p.m. at Bellevue hall.

**Handicraft**
Youngsters, MWF, 1 to 2:30 p.m., 101 Parkview; TuTh, 1 to 4 p.m. next to 208 Peoria street; MWF, 3 to 4:30 p.m. Jefferson elementary school.
Children under 7: MWF, 10 to 11:30 a.m., 101 Parkview; TuTh, 10 to 11:30 a.m., next to 208 Peoria; MWF, 3 to 4:30 p.m.

**Model Airplanes**
For boys 10 years and over, Tuesday, 7 to 9 p.m. at 101 Parkview.

**Dramatics and Rhythmics**
For children 8 and under, TuTh, 1 to 2:30 p.m. Jefferson elementary; TuTh, 3 to 4:30 p.m., 101 Parkview; Monday, 10 to 11:30 a.m., Crocker.

**Archery, Hunting, etc.**
Boys, 14 to 18, first and third Wednesday at 337 Bellevue from 7:15 to 9:15 p.m. Sponsored by the Daly City Rod and Gun Club.

**Swimming**
(Jefferson High school pool)
Monday to Friday, 2 to 4:30 and 7:30 to 9:15 p.m.; Saturday, 2 to 4:30 p.m.; Wednesday, 7:30 to 9:30 p.m. women and girls only.
See your playground directors for details, or phone the Daly City Recreation department office, PL 5-0477.

Only municipally owned lighthouse in the world chartered by a national government is the miniature lighthouse of San Francisco's Yacht Harbor.

Massachusetts produces great quantities of cranberries.

NEWS OF YOUR NEIGHBORS

**Butch Dorrance**, young son of Mr. and Mrs. Dorrance of Jackson, California, was busy at work in the city water department this Wednesday. The nephew of Mrs. Ida Hanley was paying his aunt a visit, and while not busily engaged reading comic books was exploring the possibilities of a future with the Daly City water department. However, his "exploration" was short lived as a few minutes later George Hopman, Daly City fisherman extraordinary, passed by and Butch rushed out of the office to find out where George caught that "big one" last week. Butch's family, who resided in Daly City for many years, are planning to make their home in Menlo Park.

**Mr. and Mrs. Emery Uhas,** 445 Knowles avenue, and guest Miss Emma Lai Kimm of Millbrae spent an enjoyable week end at the Awahnee Hotel in Yosemite Valley. They recommend Yosemite for anyone wishing to "get away from it all" for a pleasant week end.

**Allen Hertel,** Daly City water department clerk, observed a birthday Wednesday, and was given a surprise party by friends in city hall. Allen isn't telling his age, but it is not hard to surmise he is well under 30 and an eligible bachelor. Happy birthday, Allen, on behalf of the Daly City Record and all the single young ladies in this community.

**Mr. and Mrs. Jack Walker,** 101 E. Vista avenue, were house guests of Mrs. Eunice Sish of Chico over the past week end. They found the 114 temperature slightly higher and less to their liking than at so cool Daly City.

**Mrs. Eva Farber** of Chicago is now visiting with her sister, Mrs. Marion McKaskle, 158 E. Vista. She says she enjoys Daly City and San Francisco and only misses the wind in Chicago. During her stay, Mrs. Farber has been, and will continue to be, interested in assisting the Daly City Boys Club. To date she has contributed several pots of steaming, tasty coffee to the club's senior directors.

**Arthur Bodien,** Daly City works superintendent, noted this week that he had completed painting of his home in Marin county. This, in itself is not news, but nature lovers will be happy to hear that he held up with the paint brush several weeks while a nest of eggs broke out into birds. The nest was under the eves of the house, and Bodien feared the paint might do them great harm. However, skeptical friends owe the slow painting job not so much to Bodien's "nature boy" inclinations as to his fondness for the comforts of an easy chair.

## OLPH Mothers' Club Holds Whist Friday

The public and whist players in particular were invited today to attend the Mother's Club of Our Lady of Perpetual Help church whist party Friday, July 21.

The game is to be held in the OLPH school auditorium, 80 Wellington avenue, at 8 p.m.

Mrs. Charles McDougal heads the committee in charge. She promises an enjoyable evening for all.

Refreshments will be served, and games provided for those who do not play whist.

*You can seldom put a price on a telephone call...but we do our best to make sure service is there when you need it.*

# THE SERVICE THAT NEVER SLEEPS

Round the clock, your telephone is one of today's best bargains

**1. Keeping night patrol** throughout the West, hundreds of telephone people are on duty to help meet emergencies and make sure your telephone will be ready to work for you when you want it. Many maintenance jobs are done at night while most telephone users are asleep. Lines are checked with electronic testers. Sensitive switching equipment is vacuum cleaned to help stop trouble before it starts.

**2. In the quiet hours of the night,** operators handle relatively few calls . . . but often they are unusually important. Repairmen are on call for service on important lines . . . doctors, hospitals and the like. Garagemen check and equip trucks for the next day's installation rounds. Building service workers make offices spic and span. All have an important part in keeping your service reliable.

**3. Day or night,** workday or holiday, your telephone remains one of your most valuable and useful servants. In spite of postwar inflation, telephone rates have gone up far less than our costs of providing service. On the average, rates have gone up less than half as much as the cost of living generally. A few pennies still buy a call . . . whether it be important or routine. Your telephone still gives you a big value for your budget dollar.

Pacific Telephone

PRICE INCREASES SINCE 1940 IN TERRITORY WE SERVE

Your telephone is one of today's best bargains

PREPARING FOR ATOMIC WARFARE—The advent of the atomic bomb has presented many problems for all types of warfare. One solution is being developed by the Marine Corps by the use of transport helicopters for moving a landing force from ship to shore. Based on ships widely dispersed off-shore, helicopters can load assault troops, flying from different directions, circumventing powerful beach defenses and land accurately in any desired position. Above, landing party disembarks. Below, troops deploy while helicopters return to ships. Range, speed and mechanical limitations of helicopters are expected to be overcome by technical improvements.

TEMPERATURE: 60 DEGREES BELOW ZERO—Soldier searching parties made heroic treks into the Yukon wilderness in seeking the U. S. Air Force C-54 plane which disappeared with 44 persons aboard in a flight from Anchorage, Alaska, to Great Falls, Montana. Walkie-talkies and pole aerials have been vitally important instruments used by the searchers in the Arctic terrain. American and Canadian soldiers and airmen engaged in the search were assembled at Whitehorse for "Exercise Sweetbrier," United States-Canada joint "combat" troop-training maneuver for Alaskan defense.

## Nearly 65 Face County Draft

Some 45 to 65 men will be called up shortly by the San Mateo county draft board for pre-induction examinations, Mrs. Virginia Anderson, coordinator for Local Boards 57 and 58 said today.

How many actually will be in the first induction, which will add about 20,000 men to the armed forces, is not yet known.

On basis of population, Daly City will furnish from two to four of the men called.

The men called will be listed in 1-A files, if physically fit, and be the first drafted, Mrs. Anderson noted.

## Hormone Progress Reported At U.C.

Two major developments in research on harmones have been reported in the current Journal of the American Chemical Society by Dr. C. H. Li, professor of biochemistry at the University of California.

In one paper Dr. Li reported a development which one day may make possible the synthetic production of the hormone which holds the key to fertility in both the male and female. This report also strengthens a new biological principle of the first importance, established by Dr. Li last year: that it is possible to obtain biologically active fractions of protein hormones small enough for possible synthesis.

In the second paper Dr. Li reported that it is possible to triple the potency—and in effect to triple the supply—of ACTH, the "anti-arthritis" hormone, and the potent peptide fraction of ACTH isolated recently by the Berkeley scientist. Dr. Li accomplished this simply by boiling ACTH or the ACTH fraction in an acid solution.

The first report concerns the follicle stimulating hormone, called FSH. It was isolated in pure form by Dr. Li last year. In the female it stimulates the growth in the ovarian follicles, making ovulation possible. In the male it may stimulate the tubules which produce sperm.

FSH is one of the critical hormones, like the better known ACTH, which are produced by the pituitary, the master gland at the base of the brain. It was isolated by the Berkeley scientist from the pituitary gland of sheep.

## Chukar Partridge Fails To Find State Livable

The State Division of Fish and Game will begin a quest next month to find out why the colorful little chukar partridge hasn't taken too well to his California foster home.

The gray, white, and maroon import from India has been raised in State game farms and released in various sections of California for the last 20 years. But what game managers call a "combination of factors" has prevented the distant relative of the grouse from being added to the list of legal hunting targets.

As a pioneer in the introduction of chukars in this country, the California agency bore the brunt of a the inevitable mistakes in the trial and error method. Partridges were released in such varied locales as the high Sierras, the coastal redwood country, and the desert.

According to the Bureau of Game Conservation, the Indian natives are doing best in the dry regions of the eastern Sierra slope.

From headquarters at Independence, Inyo county, Division personnel will trap, mark, and release chukars in an effort to learn some of the bird's habits. It is suspected that lack of water, predation, and competition with native birds will show up as important reasons for the chukar's failure to hold its own.

A newly - developed tagging method will be used. After live-trapping, the birds will be marked with colored strips of plastic fastened to the skin at the back of the neck. Similar work with pheasants and quail has shown the procedure to be harmless to the bird.

Following close observation and eventual collection of the plastic markers, State employees will be armed with enough information to advise whether sportsmen's money should be used in further efforts to establish the chukar, or if it should be listed with those temperamental wildlife exotics which have proved to be poor California citizens.

## SPORTSMEN'S CALENDAR

The Division of Fish and Game reminds California sportsmen of the following general regulations which apply to current hunting and fishing.

TROUT—Ends October 31. Bag limit: 15 trout, salmon, or Rocky mountain whitefish, but not more than 10 pounds and one fish. Local exceptions.

BLACK BASS, SUNFISH, CRAPPIE, SACRAMENTO PERCH — Ends February 28 in northern California. No closed season elsewhere. Bag limits: 5 black bass, 25 sunfish, crappie, perch. Local exceptions. No size limits.

STRIPED BASS — No closed season. Bag limit: 5 fish or 25 pounds and one fish, or 2 fish regardless of weight. Minimum size limit: 12 inches.

CATFISH — No closed season. Bag and possession limits: 15 pounds and one fish in the round, or 8 pounds and one fish dressed. Minimum size: 9 inches in Clear Lake; 10 inches in District 22; none elsewhere. Night fishing permitted in District 22, Siskiyou, Shasta, Modoc, and Lake counties.

SHAD—No closed season. Bag limit: 5 fish between June 10 and March 14. No limit at other times. Angling hours: from one hour before sunrise to one hour after sunset, or by hand dipnet at any time.

OCEAN FISH—No closed season on the following species (bag limit included): 15 rockfish; 2 marlin; 2 black sea bass; 3 salmon; 2 broadbill swordfish; 10 tuna crocker, skipjack, albacore, barracuda, yellowtail, white sea bass bonito, rock bass kelp bass, corbina, halibut, ling cod and cabezone. No limit other species.

GRUNION — Ends March 31. No bag limit. Angling license required.

ABALONES—Ends January 14. Bag and possession limit: 5 per day. Minimum size limits: red abalone, 7 inches; green, 6¼; pink, 6; black, 5.

CLAMS—Closed until September 1 in Humboldt and Monterey Bay areas. No closed season elsewhere. Bag limits: 30 razor; 10 big neck; 10 Pismo; 10 Washington. No limit on jack knife clams.

COCKLES — Closed until September 1 in counties north of San Luis Obispo county. No closed season elsewhere. Bag limit: 50. Minimum size limit: one and one-half inches in diameter.

FROGS — Ends November 30. Bag limit: 24 per day, 48 per week. Size limit: none under four inches from tip of nose to crotch. No license required.

PREDATORY ANIMALS — No closed season. No license required for taking of moles, shrews, opossums, gophers, wolves, coyotes, raccoons, weasels, skunks, mountain lions, wildcats.

## State Journalism Marks Centennial

The fabulous growth of California, in little more than 100 years, from a wilderness to its present top-ranking position in the Union, will be graphically portrayed at the Centennial Exposition of California Journalism at San Diego, August 1 through September 9.

Co-sponsored by the San Diego City and County and the California Centennials Commission, the exposition to be held in romantically historic Balboa Park will comprise a five phase show. Built around the story of the development of the state's newspaper during the last century, the Exposition will also feature the Library of Congress Exhibit of California Treasures; an exhibit of California artists; an eight-day Pageant; and a daily program of special events and features in the Little Theater. The three exhibits and the Little Theater will be in the Electric Building, and the Pageant has been planned for Presidio Park.

Under the direction of Herbert Kornfield, well-known engineer-designer, artists and craftsmen today were building backgrounds and scenic effects in the Electric Building. To provide suitable setting, the background will be divided between modern effects and those of the early days of California.

There will be a replica of an old-time village, against which papers of the Gold Rush Days and later periods will be displayed, and, to provide suitable back-grounds for the gigantic newspaper industry of California today, modern paneling, in flat planes, curves and angles, is being erected.

Highlighting the early-day section of the exhibition will be priceless original editions of some of the State's earliest newspapers which have been assembled from the archives of libraries and museums, and from private collections throughout the state. Old-time cartoons, engravings and lithographs also will be shown.

An old-time newspaper shop, complete with a century-old Washington hand-press, part of a collection owned by Charles Palmer of Fresno, will be set up and operated during the six weeks of the show. In contrast, a modern newsroom will be in operation, with teletypes, wire-photo equipment, and other present-day equipment in operation.

**PLUG POINT POINTER**

Lots of pointers have been given on spark plug points, declares the National Automobile Club. One that seems to have been missed is that eventually, if not immediately after the ten thousand miles accepted as standard, the points will burn and make the gap wider than that prescribed for best performance. The car keeps on running, it's true, but not as well as if the points were right.

LET US BE GLAD
It is a beautiful sight to see a profusion of flowers brightening the landscape with brilliant colors. In a well-kept garden or in some remote meadow or woodland an array of blossoms will not fail to win our admiration.
So great is the love of flowers in the human heart that since the beginning of time men have written of their beauty and sung their praises. Gardens grace most of our homes, and where room or climate does not permit, we cultivate blossoms in small containers in our houses.
And what are these fragile things of beauty that gladden our hearts? We can seek the advice of a botanist or an organic chemist, but even then we know that a flower is just one more of God's creations—just one more of the millions and millions of pleasures that He has given us.
For these and all our blessings, let us be glad. Let us go to Church this Sunday and next, and sing His praises.
HOLY BIBLE
THE CHURCH FOR ALL . . . ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# DALY CITY PLAYGROUND ACTIVITIES

**MARCHBANKS PLAYGROUND**
**by Glen Smith**

The track team sign-up on Monday was very good. The following signed up for track and have been practicing all week:

Girls 12 yrs. and under: Betty Scott, Arlene Callan, Arlene Trapp, Sue Scott, Jurdy Rasmussen.

Girls 13 yrs. and over: Carol Glover, Dolores Wheeler.

Boys 11 yrs. and under: James Wilson and Frederick Derrolus.

Boys 12 and 13 yrs.: John Schwaninger, Also Bacigalupi, Charles Cameron, James Rector, Ed Van Stavern, Jim Galindo, Dave Rasmussen, Mike Larime, Ken Klees, Jerry Gruenwald.

Boys 14 yrs. and over: Bill Warnick, Joe Galante, Jack Allain, Carl Gruenwald, Ray Rosa, John Robinson, Fred Thompson.

On Tuesday a horse shoe tournament for boys 14 years and over was held. Pete Stone beat Fred Thompson in the finals to win.

The softball accuracy throw for boys and girls was won by Betty Scott, who beat John Schwaninger in the finals.

On Friday, Marchbanks playground was host for the All-City Horseshoe Tournament. A very good time was had by all.

**DRAMATICS and RHYTHMICS**
**by Maurine Guymon**

"Mrs. Goose of Animal Town" by Miriam Potter is still the favorite book of the children at Marchbanks Park and Jefferson Elementary playground.

Last week at Marchbanks Park the children acted out the episode of Mrs. Goose. Her friends were Black Cat, played by Catherine Gruteras, and Mrs. Squirrel, played by Theresa Gruteras. The children also had a happy surprise when Mary Lou Jordan brought her albums of "Puss in Boots" and everyone enjoyed listening to it on the phonograph. Sharon Guzlas brought several additional sets of blocks for the rhythm band and now almost every child has an instrument.

At Jefferson Elementary playground the children are enthusiastic about the rhythm band and the marching formations. Vickie Gerard is an excellent leader with the sandpaper blocks and Nora Mae Swinger is adding special interest to the band with her playing on the triangle.

**LINCOLN PLAYGROUND**
**by Bucky Linhares**

On Friday, July 14, Lincoln's track team headed for Jefferson High School to enter the Junior Olympics.

They knew it was impossible to win, since they had no girl participants, but they were out to make the best showing they could. The showing they did make, considering they had but a handful of boys was very commendable. A strong second place was taken and was due to the efforts of Bob Murchinson, Joe Fischer, Gene Lorenzo, Don Wilson, Ray Smitche, Coleman Lee, Tony Bautista and Darrel Hutchinson.

A horse shoe tournament was held at Marchbanks following the Olympics. Darrel Hutchinson represented Lincoln Park. He was neck and neck with the leader all the way until they pitched for the last time, but it was not his day and he lost, taking second place.

This week is talent week and features an amateur hour at the high school at 10 a. m. Last year Larry Hutchinson won the contest for Lincoln Park and we believe he can repeat again. If his act this year is as novel as his singing impersonation of Peter Lorre with which he won, I am sure he will have a repeat victory.

Paddle handball is also on this week's agenda, and will be held at Jefferson Elementary at 1:30 p. m. Lincoln should have a good chance of winning this, having the potential for it but needing practice.

**CROCKER PLAYGROUND**
**by Regina Warchot**

This week the children at Crocker playground were busy practicing for tournaments.

This was sports week at Crocker. Our baseball team won a game Thursday morning and in the afternoon a group of very skilled horseshoe pitchers and the director walked to the Lincoln playground. At Lincoln we chose the winning horseshoe pitchers for the group of 11 and under: Danny Curtin and Peter Sallas. For the group 12 to 14, Buddy Dickson, and for the older group, Frank Bricker. We also had prizes for the winners of every Olympic event which was held at the Crocker Playground.

Next week we are going to have an amateur show and an outing. It seems that everyone likes fishing, so...who knows! Maybe our playground group will meet at Lake Merced some bright morning for a fishing outing.

**JEFFERSON HIGH SCHOOL**
**by Mary Falbo**

Wednesday evening, July 12, the girls softball team played the Colma softball team. The score at the end of the seventh inning was 11-14 in favor of the Jefferson Playground girls.

Paulette Endres, pitcher for the Jefferson Playground, pitched a very nice game and performed well in fielding. Martha Marshall did a fine job at first base and hitting. Donna Schulda, catcher, played a very fine game also.

Teen-age folk dancing started last Tuesday. About 16 dancers were present. A larger group is expected next meeting. This group meets every Tuesday at 7 p. m. at Castle Hall. Everyone is welcome. Come and join the fun.

**CRAFT CENTER**
**by James Kraywinkel**

At the rate the children are showing up for craft new supplies, help and space are needed. At the present time the Parkview Craft Center is too small and the Peoria and Little Jeff rooms are becoming that way. The attendance is almost double that of last year at this time. Now don't let this stop you from coming out, because somehow, some way, we will find room for you to work.

This past week the small children have made birds, ducks and painted statues. The birds and ducks were cut from colored paper. The older children have been doing a variety of things from felt purses to trays with a cork top, which are hand painted.

The airplane modeling class, Tuesday nights at 7 o'clock had a good attendance last week and some of the boys have one plane almost finished. The boys for this class have to be at least ten years old. Some of the boys are fourteen and fifteen. I hope more will turn out in the future.

**JEFFERSON ELEM. SCHOOL**
**by Beverly Clement**

A hat show, horseshoe tournament, and an outing to fish at Lake Merced, highlighted this week's activities at Little Jeff. The hat show seemed to be the most exciting event with over 40 original creations competing for prizes in the various classes.

Herby Sullivan took first place for the brightest hat with his gaudy yarn creation, while Dicky Tomlinson and Phyllis Tomlinson took 2nd and 3rd respectively. Competition for smallest hat was keen, but Ario Gregori took 1st, Jerome Collossimo 2nd, and Sammy Bianculanna 3rd. Bittiest was won by John Greenfield with Bob Biorni 2nd and Danny Tomlinson 3rd. Wayne Flansburg modeled a beautiful creation of brown felt big rabbits and easter lilies to win the funniest title, while Loretta Bolentini and Clara Collossimo ran a close 2nd and 3rd. Screwiest hat was created and modeled by Janice Toole with 2nd and 3rd taken by Louis Colossimo and Joey Bollentini respectively. Tommy Swineer, Nora May Swineer and Frances Brussoe won 1st, 2nd and 3rd respectively in the best paper bag class.

Barbara Tafoya, Judy McCuddy and Claudine Fair wore the best conservative creations. The best in the show went to Bobby Giorni with Janice Toole and Sammy Bianculanna 2nd and 3rd.

The horseshoe tournament showed five new champions eligible to compete in the city-wide tournament. Sammy Bianculanna defeated John Suitto 21-17 to win the boys class C title. Albie Gerrans beat Albie Figone 21-14 in the boys class A and Leslie Balestra defeated Chuck Lewis 21-14 in boys class A. Janice Toole was champion in girls class B and Eleanor Shulda was class A champion.

Next Tuesday, July 25, at 2:30 will be dress-up or costume day. Wednesday we will all go roller skating and Thursday, basketball fiends will compete for titles in free-throw tournament.

SAN DIEGO CENTENNIAL CELEBRATION
1850-1950
2 years in preparation
presented by
San Diego City and County Centennial Commission
In conjunction with California State Centennials Commission
AUG. 1st to SEPT. 9th inclusive
— In world-famous BALBOA PARK ★ "Centennial Exposition of Journalism"
Co-sponsored by California Newspaper Publishers Association ★ Library of Congress Statehood and Gold Rush Exhibit ★ 100 year California Art Exhibit
★ Historic Pageant in Presidio Park, Sept. 2 to 9, Evenings — Authentic Parade
COME TO SAN DIEGO . . . WHERE CALIFORNIA BEGAN . . . SEE THE MOST EXCITING AND BEAUTIFUL EXHIBIT OF THE CENTURY

Last Tuesday was a big day in our lives...
we connected our millionth gas customer!
*Here are a few of the people who made it possible...*

*Our millionth gas customer*, Mrs. Robert W. Wolf, and her brand new San Francisco home, designed by her husband. We served our *first* gas customer 98 years ago.

*Mrs. Mabel Lytle*, Fresno. Part of her savings invested in P. G. and E. stock pays her a return, and helps build important projects like "Super-Inch" for the future. Women, by the way, own more P. G. and E. stock than do men.

*Walter Teague*, one of 16,572 P. G. and E. employees. He connected the new Wolf home to our mains—his 2500th installation in his 5 years with P. G. and E.

You can see by the expressions on the faces of P. G. and E. people that everybody was pleased and proud to have reached the one-million mark.

But what pleased all of us most is—our million gas customers get not only *good* service, but get it at rates among the lowest in the whole United States!

*Alex Spratling*, field man in charge of P. G. and E's famed 63 million dollar "Super-Inch" Pipeline being built to bring Texas and New Mexico gas to P. G. and E's customers by January.

# Marie's Place Sinks Navy Nine

By Angelo Craviotto

Marie's Place nine chalked up their fourth straight win Sunday in their infant season over the Twelfth Naval District, 13 to 3.

Canepa picked up his second victory but had to be relieved in the sixth inning by Donley when Canepa got a recurrance of his sore soup bone (is there a doctor in the park?). Marie's Place this time collected 17 hits, this running their total to 28 hits, 19 runs in two games.

It was a walk-away from the start. The only element hindering them was the Oceanview Park wind. Balls were playing tricks with both sides.

The Navy threw in 18 men to turn the tide of the battle. But could never overcome the barrage of doubles and triples when the sacks were bulging to set up another victory for Marie's Place.

Marie's Place Block Busters up to July 16 saw only blue skies ahead of them. The only dark cloud that can be seen might be that of overconfidence.

Until next week, I'll see you at 6005 Mission street.

# Midget Auto Races At Belmont Sunday

Belmont Speedway, one of California's fastest quarter-mile ovals, was being put into shape this week for an eight-event midget auto racing program to be held Sunday afternoon.

More than 35 leading California midget jockeys have filed entries in the special event, proceeds of which go in part to San Mateo-Burlingame Veterans of Foreign Wars as a result of an agreement signed this week by speedway director Ted Smyth and post commander Curtis Brown.

Listed under special events will be the famous Bartender's Destruction Derby in which bartenders pilot stock cars, crashing and banging around the track in reverse gear. "Total destruction" is the starters order in this crazy event.

Woody Brown of Oakland and Ed Normi, Petaluma ace, will vie for top prizes in the competition. Brown is rated the outstanding driver of California and a major threat in the 100-lap feature event.

# FISH AND GAME NOTES

by Jimmy Fox

The Sid Oliva, Exposition Fish Grotto case comes to court September 20.

The exact charge in the case is violation of Section 15.4 of the Fish and Game Code, regulating the limit of any catch, and violation of Section 691 of the Fish and Game Code, prohibiting the taking of striped bass by any means other than angling.

To get away from the Fish and Game Laws to a more interesting subject let's hear about the latest information from the California Wildlife Conservation Board. The board consultant, Mr. Seth Gordon gave quite an interesting talk last Wednesday evening at the 51st anniversary banquet of the San Francisco Striped Bass Club. Briefly his talk explained the program that he and the board have outlined for the fish and game commission. All that the sportsmen have to do is see that the thing is carried out.

**ANGLERS**

Local anglers have been doing fine in Lake Merced. Seems that the fishing there is the best around the bay area. In fact it might be classed as some of the best in the state.

George Hopman, Danny McGee and Andy Van Der Werff spent a few days up in Lassen county fishing the Pitt River and Hat Creek with very little success. I believe the score was 12 fish between them for the whole trip. The same three anglers have been going out to Lake Merced and have already caught larger fish and more fish in our local fishin' hole. Hopman is bragging all over town about the nice 13 incher he snagged in Lake Merced while the best he could do up north was a 9 inch fish.

Top of the hill Barber Cliff Curry borrowed some tackle to try the Merced trout and has since purchased a complete outfit. Seems he got two nice fish on his first trip to the lake. The top fish for Cliff so far is a beautiful 1½ pounder about 14 inches long. If any of you folks go up to Cliff's for a haircut and find the place closed, just stick around, for he will be back shortly. He now spends his mornings fishing.

Another angler who has been doing O. K. is George Witte Jr. and he has a nice fish as his top fish. It is a 16 inch, 2 1-4 pound Rainbow. He fishes with the usual eggs and also has had fine luck on a small flatfish.

A few stripers were taken off Mission rock last week end by the Striped Bass Club of S. F. The largest was a 24 pound fish.

# Hunting Licenses Now On Sale

With the August 7 opening of deer hunting season just around the corner, the Division of Fish and Game has issued a reminder to California hunters that 1950-51 licenses are now on sale in five Division offices and 3,000 license agencies.

The permits are required for all types of hunting after July 1.

Printed copies of the complete 1950 hunting regulations are now available with each license purchase.

Out-of-state nimrods will feel the effects of a new legislative ruling which boosted their license fee from a reciprical minimum of $10 to a flat $25. Nonresident citizens will also be charged $10 for deer hunting tags.

Resident citizen license fees remain the same as in 1949: $3 for hunting license; $1 for deer tags.

Another legislative innovation put nine game shipping tags on each new hunting license. The detachable permits must be used when a daily possession limit of quail, pheasants, or doves is offered for common carrier shipment.

Bay Cities Racing Association officials were not sure today whether or not Freddy Agabashain would show up for Sunday's races. Snyth felt that he might. Agabashain returned recently from the Indianapolis 500-mile classic.

Quality tests start the racing program Sunday afternoon with feature races getting underway at 2 o'clock.

**SINKING BRAKE PEDAL**

If the brake pedal gradually sinks toward the floor while you are holding the car on an incline, it means trouble. Your vehicle should be taken to a repair shop without delay, advises the California State Automobile Association. The probable cause of this condition is a defective hydraulic master cylinder.

# SOFTBALL LEAGUE

## Mid-City Scores Upsets; Faculty Wins Third Straight; Colma Fire Downed

By Milton Tromborg

Behind a hitting barrage that could be heard from here to shores of Japan, Mid City nine finally came out of a deep sleep to start climbing towards the league championship.

After losing their opening game, they came back to face the rough and tough Amazon A.C. What was expected to be an easy game for the A.C. club turned out to be a different story as the bats of the Mid City nine found power in the late innings to tie the game up, 8-8.

Batting stars of the night were Leo Giannecchini, who hit 2 for 4, driving in 2 runs and scoring 1. Krupa, Mid City starting pitcher, scored the winning run in the last frame. Getting on base by the walk route, Krupa scored on a costly error by the Amazon A.C. in field.

**Colma Fire Blasted**

In their third game of the league, Mid City again came back to score another up-set, this time coming from behind to wallop the Colma Fire Department 13-8.

Lou Niannini, who already has shown good promise as a softball pitcher, had good control for the Colma nine, but everything he put over the plate Mid City hit out of the infield. They hit Lou for 15 bingles.

The star of this game turned out to be relief pitcher Selmi of Mid City. Going into the game in the middle of the third inning, Selmi gave up but 3 hits and 2 runs. This is not all . . . at the plate he hit a 2 bagger, and a single, scoring 2 runs, driving in 2.

**Eagles Lose**

Molding out a 11-10 win over the Daly City Eagles, the Daly City Hardware nine kept their bid for the league title by winning their third straight game in as many starts.

The Eagles put on two stunning do-or-die innings, but failed to bring men across the plate. After three full innings of hit-and-run ball, the Daly City nine took a lead of 11-3, only to see the roof cave in on them.

The Eagles, after scoring 1 run in the first four innings, came back in the fifth frame to score fire big fat runs.

Blankenhorn had a good night at the plate for the Eagles, hitting 3 for 3, while Cavavanter hit 4-4 for the Hardware nine. The winning hurler was Underwood, and the losing pitcher, Piarkowsky.

**Faculty Nine**

Look out . . . they're not as bad as they look. This is what the Faculty nine is saying about the Scout Dads. They had to come from behind a 2-0 score before taking their third game in a row.

The Scout Dads put up a brilliant stand until the last batter was out. Glenn South took over pitching chores for the Facutly, thus giving Mike Orlich a rest. On the mound, South gave up but five hits, with an added attraction, 6 walks. South paced the hitters with 2 hits at 4 times at plate.

Here are the 10 leading hitters in the league as of July 18.

| Name | Team | ab | h | pct. |
|---|---|---|---|---|
| Mosman, D. C. Hard... | | 2 | 2 | 1.000 |
| South, Faculty | | 9 | 7 | .777 |
| Rose, Faculty | | 7 | 5 | .714 |
| Abby, Amazon A.C.... | | 9 | 6 | .666 |
| Fehl, Eagles | | 9 | 6 | .666 |
| Martini, D. C. Fire... | | 6 | 4 | .666 |
| Knox, Scout Dads | | 8 | 5 | .625 |
| Johnson, Faculty | | 5 | 3 | .600 |
| Chase, D. C. Hardware | | 7 | 4 | .571 |
| McGrath, Faculty | | 9 | 5 | .555 |

These are the top ten leaders who have played in two or more games only.

LEAGUE STANDINGS JULY 18

| Team | Won | Lost | Tied |
|---|---|---|---|
| Faculty | 3 | 0 | 0 |
| D. C. Hardware | 3 | 0 | 0 |
| Amazon A.C. | 1 | 0 | 1 |
| Scout Dads | 1 | 2 | 0 |

| D. C. Fire | 0 | 2 | 0 |

## Barbara Jensen Scores Again

Colma's Barbara Jensen, Sunday turned in her usual stellar performance at the thirteenth annual Far Western Swimming and Diving Championships.

She was high point swimmer for the Crystal Plunge team. Saturday she anchored her team's victorious 800 meter relay and swam on the second place trio in the medley relay Sunday.

She left the other swimmers far in the rear Sunday as she swept to impressive triumphs in the 200 meter backstroke and 300 meter individual races. Time for the individual race was 4:38.

In the 200 meter backstroke the time was 2:53.

Sauvignon Blanc grapes are used for a sauterne wine which is often mixed with wine from Semillon grapes.

Colusa county is one of the 27 original counties of California.

### *Fishermen Take Average Of 4 Fish From Ocean*

Angling from party boats off the California coast during the month of May paid dividends of nearly four fish for each trip taken by 57,168 sportsmen.

The Marine Fisheries laboratory of the Division of Fish and Game checked the monthly summaries of 299 boat operators. They reported a catch of 82,620 kelp and sand bass, 56,660 rockfish, 9,600 barracuda, and 1260 yellowtail.

A total of 2612 sport fishermen hooked 2,290 salmon and 420 fish of other species in ocean waters near San Francisco.

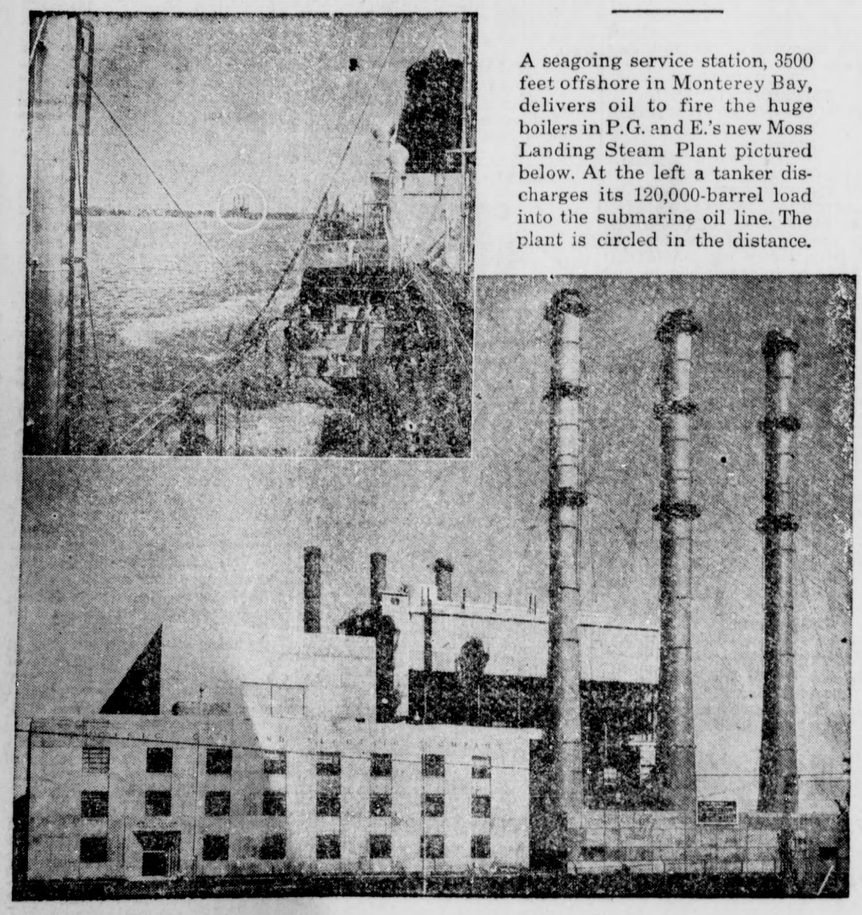
## Sunday Games

10 a.m. — Daly City Red Sox vs. Little Village Market Jrs., Ocean View No 2.

Noon — Sarto's vs. Bittner Juniors, Marchbanks park.

2 p.m. — Daly City Billiard Parlor vs. Excelsior Merchants, Ocean View No. 2.

## Ship-to-Shore Fuel for New Power Giant



A seagoing service station, 3500 feet offshore in Monterey Bay, delivers oil to fire the huge boilers in P.G. and E.'s new Moss Landing Steam Plant pictured below. At the left a tanker discharges its 120,000-barrel load into the submarine oil line. The plant is circled in the distance.

# MARCHBANKS PLAYGROUND WINS FRIDAY'S JUNIOR OLYMPICS

The fifth annual Junior Olympics sponsored by the Daly City Recreation Department last Friday was a huge success with close to 150 boys and girls competing for their playgrounds and for award ribbons.

Marchbanks playground totaled the greatest number of points of the five competing playgrounds. The total scores for all five divisions of competition showed Marchbanks took its first meet of the annual event with a large score of 212 points.

The High School playground came in second with 81 points; Jefferson, a close third with 78½ points; Lincoln fourth with 50½ points; and Crocker playground fifth with 28 points.

Competition was always keen but excellent sportsmanship was displayed by the contestants throughout the meet. It was satisfying to observe the efffort put forth by everyone. Although the Jr. Olympics was run off very efficiently it still required three hours to complete.

In the Junior Olympics summaries below, playground initials will be used as follows: (M) Marchbanks, (HS) High School Playground, (J) Jefferson Elementary Playground, (L) Lincoln Playground, (C) Crocker Playground.

**Boys — Class "A" (14 years and over):**

In the boys class A division, Lincoln playground tried valiantly to win their division, but Marchbanks had too much for them. Marchbanks scored 47 points to Lincoln's 31. The High School playground followed with 14 points, Jefferson playground followed with 5 and Crocker with none in this division.

The highest scorer was Jack Allain (M), by taking first in the broad jump (17 ft. 6 in.) and football kick (129 ft.), and second in the 15-yard dash. Joe Fisher of Lincoln was second highest, getting a first in the 75-yard dash, a second in the broad jump, and a third in the high jump. Gene Lorenzo (L) was close behind with a first in the potato race, a second in the high jump and a fourth in the softball throw. Other first place winners were: Fred Thompson (M), high jump; Bob Murchison (L), softball throw (219 ft.); Leslie Balestra (J), football accuracy throw (4 for 5); shuttle relay (M), F. Thompson, B. Warmack, D. Cafferata, J. Allain; 200-yard relay (HS), R. Tschirgi, B. De Bernardi, C. Olson, B. Blowers.

Score of highest point winners were: Jack Allain, 14¾; Joe Fisher, 10¾; Gene Lorenzo, 10½; Fred Thompson, 8¾; Bob Marchison, 8.

Other boys scoring points in this division were: Ray Tschirgi (HS), Charles Olson (HS), Dave Cafferata (HS), Angelo Squeri (M), Bill Warmack (M), John Robinson (M), Carl Gruenwald (M), Leslie Balestra (J), Lee Colman (L), Lenny Monson (HS), Fiske (L), Tony Bautista (L), Don Wilson (L), Harris (HS), B. De Bernardi (HS), B. Blowers (HS), and Ray Schmitke (HS).

**Girls — Class "A" (13 years and over)**

In the girls Class A division, Marchbanks dominated with 45 points to second place High School's 25 points. Crocker followed with 4 points, while Lincoln and Jefferson failed to score.

Paulette Endres (HS) was individually outstanding with 20½ points. She was closely followed by Carol Glover (M) with 18½ points to her credit. Judy Liberti (M), 13½ points, and Angela Lufrano (M), 12½ points also did very well.

Paulette Endres got most of her points by taking first in the 50-yard dash, and potato race, and seconds in the broad jump, softball throw, and soccer kick. While Carol Glover scored heavily by getting firsts in the broad jump (13 ft. 6 in.), softball accuracy throw (3 for 5) second in the potato race, third in the dash, fourth in the soccer kick, and was a member of the winning relay teams.

Other first place winners were: Judy Liberti (M), softball throw (144 ft.), soccer kick (102 ft.); shuttle and 200-yard relays (M) Mary Schuler, Angela Lufrano, Carol Glover and Judy Liberti.

Points were also scored by Diane Furger (HS), Nodi O'Brien (C), Astrid Chun-Fat (HS) and Diane Endres (HS).

**Boys — Class B (12 and 13 years old)**

In the boys Class B competition Marchbanks eked out a one-point victory over the High School playground, 29 to 28. Jefferson Playground followed with 21, Crocker with 12 and Lincoln with 8 points.

Ronnie Harris (HS) was the outstanding performer with firsts in the high jump (4 ft.) and broad jump (14 feet), and seconds in the 50-yard dash and potato race. John Murphy (M) picked up a first in the softball throw (201 ft), a third in the dash, a fourth in the high jump and was a member of the second-place shuttle relay team. Other first place winners were: Bob Rocchi (J), 50-yard dash; Darrel Hutchinson (L) potato race; Richard Guisti (HS) football kick (105 feet), Larry Bradly (C) football accuracy throw (3 for 5); shuttle relay (J) B. Rocchi, G. Rocchi, D. Tomlinson, W. Flansburg; 200-yard relay (M), R. Gonzales, K. Kleets, L. Kennedy, J. Galindo.

The leading point scores were: Ronnie Harris (HS) 16, John Murphy (M) 10¾, Mike Lorraime (M) 9¾, George Rocchi (J) 9, Darrell Hutchinson (L) 8, and Bob Rocchi (J) 8. Other boys who scored points and took home award ribbons were: John Schwinger (M), Dick Kalinin (HS), Richard Guisti (HS), Larry Bradley (C), DeWayne Hale (C), Dick Hopman (HS), Danny Tomlinson (J), Wayne Flansburg, Richard Gonzales (M), Frank Cirimele (M), Robert Dixon (C), Kenny Kleets (M) Larry Kennedy (M) and Jimmy Galindo (M).

**Girls — Class B (12 and under)**

Marchbanks' girls proved their class in the Class B division by scoring 63 points. The Jefferson playground followed with 13, and the High School playground with 6 points.

Betty Scott, the Marchbanks "athlete of the year" scored 30½ points, the highest individual score of the track and field meet (look out, Bob Mathias!). Betty placed first in the 50-yard dash, broad jump (13 feet 6 inches), softball throw (140 feet), softball accuracy throw (4 for 5), soccer kick (96 feet) and second in the potato race, besides being the anchor runner on the two winning relay teams. Arlene Trapp, also of Marchbanks, also performed very well, earning a total of 19½ points. Besides being on the winning relay teams, she won the potato race and took seconds in the 50-yard dash, broad jump and third places in the softball accuracy throw and soccer kick.

Arlene Callon (M) with 12½ points was third highest scorer. Other girls winning ribbons were: Janice Toole (J), Arlene DeBolton (J), Nancy Gisler (J), Margo Gorospe (HS), Gail Alexander (HS), and Sue Scott (M).

**Boys — Class "C" (11 years and under)**

Jefferson Playground came out on top in the boys Class C division with 39 points, Marchbanks followed with 28 points, while Crocker picked up 12, Lincoln 11 and the High School grounds 8.

Andy Ruellas (M) was the leading scorer by taking firsts in the football accuracy throw, and the potato race, and the tie for first in the football kick (78 feet) besides points in the relays and the softball throw. John Scisitti (J) was close behind with a first in the 50-yard dash, a tie for first in the football kick (78 feet) a third in the broad jump and ran on the winning relay teams.

Other first place winners were: Vic Lewkowitz (4 feet 3 inches); Richard Guisti (HS) broad jump (12 feet 6 inches); Richard Duncan (J) softball throw (138 feet) and 200-yard relay; shuttle relay (J) D. Tomlinson, R. Duncan, J. Ordonez, J. Scutti.

The highest individual scores were as follows: A. Ruellas (M) 15¼, John Sciutti (J) 13½, Joe Ordonez (J) 9¼, Richard Duncan (J) 9½, Jack Pottinger (L) 6½, and Danny Rasmussen (M) 6½ points.

Other point and ribbon winners were: Jack Lewkowitz (C), Danny Curtin (C), Peter Sallas (C), Vic Lewkowitz, Don Duncan (J), Bill Bricker (C), Richard Duncan (J), Jack Bautista (L) Dick Tomlinson (J), Lanny Calvin (L), Bobby Rich (L), James Wilson (M), Robert Miski (M), Jimmy Snider (HS), Jerry Kennedy (HS), John Bernardo (HS), Ronnie Kalinin (HS), and Bob Conner (HS).

## Sarto Boys Hit Homers For Win And Loss

Two lost, one victory was the score for the two Sarto teams over the week end.

Sarto's had the first game Friday and lost to Park Presidio 6 to 4 in the Funston Night league. This makes one win to five losses for the Sarto boys in this league.

Sunday Sarto's rallied to take Hilda's Bakery 7 to 5. A tight game until the ninth, the score was tied 5 to 5 when pitcher Henry Morgan drove in a homer bringing in two runs.

Alex Findlay, catcher, had the impressive batting average of the day. He was at bat five times, and crossed the bases, as he knocked a homer early in the game.

Despite a homer by Don Lunghi, Sarto A.C. lost its game Sunday to Joe's Club by 5 to 3. The game was all tied up 3 to 3 until the twelfth inning, when Joe's brought in two runs.

## Ralphs Break Even In Games

Ralph's Cleaners broke even in two games played over the week-end.

The first game was a victory over Marty-The-Geary Friday night. Final score in this tilt was 7 to 3. This was to have been the first game in the San Francisco Summer Recreation league, but the team Ralph's was to have played failed to appear, and the Marty-The-Geary game was listed as practice.

Monday evening, in the Summer South San Francisco League, Ralph's lost 3 to 1 to the South City Windbreakers. Jim Haupt made the only run. The Windbreakers scored on two errors made by Ralph's in the first inning.

Pitching for Ralph's, Whitey Mechm held the Windbreakers down to four hits.

This Friday, July 21, Ralph's meets Western Sea Frontier at Big Rec't. field in San Francisco at 9 p. m.

Tuesday they take on Marty-The-Geary in South City at 8:40 p. m.

**DOUBLE RISK**

When you stop at a double-track railroad crossing for a passing train, make sure that the second track is clear before you proceed. The California State Automobile Association points out that many grade crossing accidents occur when impatient motorists drive in front of another oncoming train, obscured by the train that has just cleared the crossing.

Thompson seedless grapes outsell all other table grapes.

# SPORTS

## Sport Shop Defeats Gelsi Liquor Sunday

Gelsi's Liquor went down to defeat Sunday before the heavy pitching of John Wilburn for Monisteri's Sport shop. Final score was 3 to 0.

During the game Wilburn allowed only one Gelsi man to make third, struck out four, and permitted but one free pass. The runs for the Sports shop came in the third and fifth inning.

Pitching for Gelsi's, Vince Voto did a good job, and allowed but six hits. Decker was the heavy hitter of the day, getting two hits as compared with one each for four other Gelsi men.

Meanwhile, the road trip for the team was not too successful. Gelsi's lost to the Twelve Mile A.C. 9 to 8 at South City, as well as the above game in San Mateo.

One win was chalked up, however, when Gelsi's downed Half Moon Bay 4 to 3.

This Sunday the Daly City team will meet the Double Play nine at Marchbanks at 2 p.m. They hope to get back in the running, and promise to put on a good game for the home-town crowd.

## Lincoln Leads Teen-Age League; Jeff High Nine Tops For Juniors

By Erle Johnson

The Lincoln Playground softball team continued their lead in the team standing by winning their third consecutive game.

Monday night they defeated the Marchbanks nine by the one-sided score of 18-3.

The Colma Boys Club team won their game 9-0 from the High School, and are right behind the Lincoln team having won two out of three games. Next Monday night July 24, these two teams will meet in the second half of the league play.

Marchbanks park is third in the standing and the High School team fourth. Boys of the High School team are urged to come to the Jefferson High School on Monday night for their game with the Marchbanks team. If the High School Playground team fails to appear again this Monday night the Colma Hog Growers Association will take their place. Softball has definitely come to stay in Daly City. Two games are played at the high school each night.

Next week there will be a complete box score of all of the games played to date. Any of you fellows of high school age are eligible to play in this league and you are asked to come to our games and try out for one of the teams. The Marchbanks team is in need of two or three players and Glen Smith, team manager, is looking for ball players.

Monday, July 24, at 7 p.m. the following teams will play: Upper Diamond, High School vs. Marchbanks; Lower Diamond, Lincoln vs. Colma Boys Club.

Team managers are urged to contact their respective players so that the second half of the league play will be more competitive than was the first half.

**Junior Baseball League**

The High School Playground baseball team continued their winning streak this week by defeating a good Crocker Playground team by the score of 8-2.

Nolan, the winning pitcher struck out 12 batters to lead his team to victory. Charlie Mainard was the "Big Stick" for the winners and started his team on their winning rally when he hit a home run in the fourth inning. Plunkett, Mainard, Monson, Murphy, Bogohostan, Pancho, Palmer, Miller and Nolan were the members of the High School team.

Crocker has come up strongly in the Junior baseball league and although they lost to the High School team they are expected to come back strong in their next encounter. Nieve and Hutchinson pitched for the losers and gave up eight hits. Dickison, Schaffer, Freeland, Curtain, Rickey, Bell and Peralta made up the remainder of the team.

All boys are encouraged to come to the high school every Tuesday and Thursday morning at 10:30 to make the league function. Every boy who attended the baseball school a few weeks ago should come to the playground at Jefferson High school and play in the league. There are some vacancies on two of the teams; so any of you who want to better yourself and become baseball players come around and see Mr. Johnson or Mr Orlich.

Games next week are as follows: Tuesday, July 24, High School vs Broadmoor; Crocker vs. Murphy's Panthers. Thursday, July 26, High School vs. Murphy's Panthers Crocker vs. Broadmoor.

This will end the first half of the league play and the winner will be decided; however, the second round will be started immediately and new teams will be added at that time. The winner of the second round will play the winner of the present round for the City championship.

## Deer Herd Problem To Be Discussed

Plans of the California Fish and Game Commission to adjust the Oregon inter-state deer herd to match the amount of available forage food will be aired at a public meeting set for August 8 in the Veteran's Memorial Hall, Alturas.

The Commission last month tentatively approved a plan designed to forestall expected disease and starvation in the herd by means of a controlled shoot which will remove no more than 1500 antlerless deer. Sportsmen, landowners, and game managers from the two states have urged the action.

To be discussed at the Alturas meeting are plans of the Division of Fish and Game to issue 1800 one-deer permits by lot. Tentative regulations call for a halt to all hunting in the area when 1500 surplus deer have been taken.

# Westlake Workman Injured By Saw

Recovering today from a deep leg wound he received while working in the Westlake saw mill is William McEvoy, 1636 Twenty-Fifth street, San Francisco.

The Westlake workman Thursday afternoon had turned his back on an automatic saw when a piece of timber shot out from the saw bed and punctured his left leg.

Rushed to Junipero Serra hospital, he was treated for a "deep leg wound and internal bleeding." Hospital authorities today report his condition as "good."

The United States Mint in San Francisco rises from the solid stone of steep Blue Mountain.

# Guardsmen Eligible For Benefits

National Guardsmen injured while on active or training duty may be eligible for disability benefits administered by the Veterans Administration, regardless of how long ago they suffered injury.

Also, dependents of National Guard members who lost their lives on active or training duty may be entitled to VA-administered death benefits, regardless of when death occurred.

Benefit payments in both cases, however, may not be made retroactive prior to August 15, 1945, even though the date of injury or death was before August 15, 1945.

The payments may be retroactive to that date, or to a later date of disability or death, if claims were filed in time.

A decision of the administrator of veterans affairs recently gave this interpretation to Public Law 108, dated June 20, 1949, a law entitling National Guardsmen and their dependents to certain VA-administered benefits in case of disability or death suffered in line of duty.

No benefit payments, the law continues, "shall be held to have accrued . . . for any period prior to" August 15, 1945.

While back pay may accrue only from the 1945 date on, the VA decision points out, the injury or death may have occurred before that time in order for the National Guardsman or his dependents to be eligible for benefits.

The decision cites the case of a member of the National Guard who injured his knee in 1934 in line of duty. "The injury . . . comes within the purview of Public Law 108 . . . ; and he may be compensated for any disability resulting from such injury, effective August 14, 1945, if otherwise entitled thereto," the ruling holds.

Congress intended the act to be retroactive to the date of injury or death, the VA decision contends, "limiting only the receipt of benefits back to August 14, 1945."

**SMALL RUN OF STRIPERS**

A small run of small striped bass has been moving up the Feather River and Sacramento River in the Butte county area during the past week, according to the National Automobile Club.

# Pillar Point Is Now Top Project

Speeding plans for construction of the Pillar Point breakwater, the United States army engineers today said the project now had a No. 1 Pacific Coast priority rating.

This announcement was coupled with the revelation that a "Fishermen's Wharf" type of development is planned for the project. This would be similar to that in San Francisco and the Santa Cruz municipal wharf.

A huge diagram of the position of the stars and planets as they were when Hoover (Boulder) Dam was completed in 1936 is set in the terrazo pavement of the dam memorial.

**SLOW DRIVERS**

Extremely slow drivers should travel only in the right-hand lane of the highway, advises the National Automobile Club. If they travel on a two-lane pavement, they should pull off the road from time to time and allow faster cars to pass to avoid long lines of slow-moving traffic.

**PLUG POINT POINTER**

Lots of pointers have been given on spark plug points, declares the National Automobile Club. One that seems to have been missed is that eventually, if not immediately after the ten thousand miles accepted as standard, the points will burn and make the gap wider than that prescribed for best performance. The car keeps on running, it's true, but not as well as if the points were right.

# Demo Central Committee Meets

For the first time in many years, the Democratic County Central Committee of San Mateo County met in an atmosphere of complete harmony Tuesday evening in the Redwood City courthouse and elected its new officials for the next two years.

Marion H. Kent, Hillsborough resident and Burlingame business man, was named chairman. Frank W. Rose, attorney of San Mateo, was picked as vice chairman. Others selected were William I. Farmer, secretary; Richard Armstrong, treasurer; and Roy Seagraves and Frank Rose, delegates to the State convention in Sacramento, August 5 and 6.

Chairman Kent appointed the following by-laws committee: Roy Seagraves, chairman; Frank Rose and Arnold Johnson. Regular meeting dates were set as the third Monday evening of each month at 220 Third avenue, San Mateo.

A special meeting will be held on Monday, July 31, for the purpose of having the committee confer with the state convention delegates regarding action to be taken in Sacramento.

**CAUSE OF SQUEAKING**

It is possible for a fully enclosed brake to squeak, points out the National Automobile Club. A loose shoe is likely to press unevenly on the drum, thus setting up a chattering effect. If heavier pressure on the brake pedal tends to stop the squeaking, it is a sign that the shoe is loose.

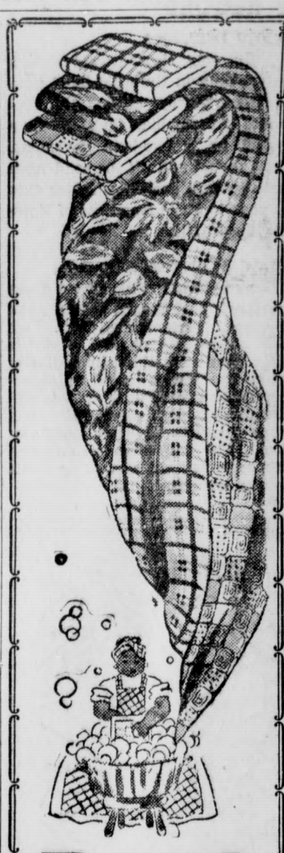
## Steam Plant Under Construction



A force of 1100 skilled craftsmen is hard at work on Monterey Bay completing Pacific Gas and Electric Company's $51,500,000 Moss Landing Steam Plant, a mighty symbol of California's wartime and postwar industrial growth.

One massive, precision-built turbine generator already is spinning out 134,000 electric horsepower. In a major construction achievement it was placed in service just 18 months and 23 days after ground was broken in a broccoli field in September, 1948. In that time a plant arose that has cost more money to build, covers more acres of land—271—and will contribute more revenue in local taxes than any other single industrial development in the history of Monterey county.

Two more generating units equal in size to the first are being installed. Early next year the plant will be in full operation, with its three generators producing 402,000 horsepower of electricity. On completion it will be the largest generating plant on the P. G. and E. system.

With three generators in operation, Moss Landing Steam Plant will have capacity to serve the entire electrical load of the four counties around it, Monterey, San Benito, Santa Cruz and Santa Clara. In actuality, however, the power is fed into the P. G. and E. network to help serve demands anywhere on the interconnected system.

MOUNTAIN DRIVING

For drivers planning summer vacation trips over narrow mountain roads, the California State Automobile Association offers these basic rules: Keep well to the right. Never pass on curves. Sound your horn on curves when you cannot see at least 200 feet ahead. On a grade too narrow for passing, the descending car must back up the hill to permit the ascending car to pass. Never coast down hill; keep your car in gear.

**TROUT ANGLERS HAVE LUCK IN FRESNO COUNTY**

Trout anglers working the streams and lakes of Fresno county had good luck during the past few days, reports the National Automobile Club. They have taken some fine catches from Kings River above Trimmer Springs and from Shaver, Huntington, Florence, and Dinkey Lakes.

## SOCIAL SECURITY

Here is a summary of the types of benefits paid under the old-age and survivors insurance provisions of the Social Security Act:

1. The primary insurance benefit, payable to the retired worker at age 65 if he has worked long enough to be insured. The amounts of all other benefits are related to this primary insurance benefit.
2. The wife's benefit, equal to one-half of the primary benefit, and payable at age 65 to the wife of a retired worker.
3. The widow's benefit, equal to three-fourths of the primary benefit, and payable at age 65 to the widow of an insured worker.
4. The child's benefit, equal to one-half of the primary benefit, and payable to the child, under 18 and unmarried, of a retired worker or a deceased insured worker.
5. The widow's current insurance benefit, equal to three-fourths of the primary benefit, and payable to the widow under 65 of a deceased insured worker if she has a young child of the worker in her care.
6. The parent's benefit, equal to one-half of the primary benefit, and payable at age 65 to dependent parents of a deceased insured worker if no other relatives eligible for monthly benefits survive.

Those are all paid monthly. When no one is immediately eligible for monthly benefits, a lump-sum benefit, equal to six times the primary benefit, is payable upon the death of an insured worker.

## Spending In Bay Area Up Sharply

Residents of San Mateo county and the Bay Area spent almost five million dollars more on goods and services in the first three months of 1950 than during the first quarter of 1949.

The Bay Area Council said today that sales in the nine counties totaled $692,500,000 in the first three months of 1950, compared to $687,700,000 during January, February and March of 1949.

Licensed retail outlets increased their sales by $21,300,000, while manufacturing, wholesaling, contracting and miscellaneous outlets sold $17,200,000 less goods as retail in the first quarter of 1950 than in the same period of 1949.

Hotels, garages, repair shops and other personal service establishments accounted for approximately the same sales during the two quarters.

A record level of home building activity in the Bay area was reflected in the sales gains shown by the household and home furnishing stores and by household appliance dealers, whose sales increased $5,300,000 and $3,600,000 respectively.

The greatest gain of any retail group was reported by the new and used motor vehicle dealers.

## Burlingame Man New Assn. Head

With the election of new officers for the San Mateo County California Service Operator's Association this week, Joe Lewkowitz turned the president's gavel over to Stan Stanley of Burlingame.

Another Daly City man, Paul Marchi turned over the secretary's position to Harold Sanburn.

Other officers include: John Romano, vice president and Earl Snow, treasurer. Snow is the operator of a Chevron station in Daly City.

The Association is made up of dealers throughout the county and is an organization to protect the customer from fly by night stations. It sets up standards observed by all legitimate gas station operators in San Mateo county.

Meanwhile, Lewkowitz this week took over the position of chairman of the legislative and war fund committees for the state Association.

Mac Hammar, another Daly operator, was chosen to head the state Association insurance and labor relations committee.

## Demos Choose Committee Heads

For the first time in many years, the Democratic County Central Committee of San Mateo County met in an atmosphere of complete harmony Tuesday evening in the Redwood City courthouse and elected its new officials for the next two years.

Marion H. Kent, Hillsborough resident and Burlingame business man, was named chairman. Frank W. Rose, attorney of San Mateo, was picked as vice - chairman. Others selected were William I. Farmer, secretary; Richard Armstrong, treasurer; and Roy Seagraves and Frank Rose, delegates to the State convention in Sacramento, August 5 and 6.

Chairman Kent appointed the following by-laws committee: Roy Seagraves, chairman; Frank Rose and Arnold Johnson. Regular meeting dates were set as the third Monday evening of each month at 220 Third avenue, San Mateo.

A special meeting will be held on Monday, July 31, for the purpose of having the committee confer with the state convention delegates regarding action to be taken in Sacramento.

**JACK-RABBIT STARTS**

Sudden stops and jack-rabbit starts cause undue wear on your car's brakes and tire-treads, warns the California State Automobile Association.

## One Out Of Two Persons In Hospitals Last Year

About one out of every two persons in Daly City and California were treated in hospitals last year for various ailments, the Association of Caliorfnia Hospitals revealed this week.

There were 5,500,000 persons treated at California hospitals. They remained at the hospitals an average of 6.8 days.

Among voluntary, non-profit hospitals, patients were treated at a cost of about $23.96.

Don't drive while drowsy, advises the National Automobile Club.

## San Bruno TV Station Planned

The largest TV station in the United States may soon be constructed at San Bruno.

Franklin Evans, manager of the Radio Diablo Inc., said plans call for a 250,000 watt station with studios in San Bruno and San Francisco.

Estimated cost of the project is $1,000,000. Construction is being held up by a "freeze" on TV stations imposed by the FFC while official study is being made of high frequency and ultra high frequency systems and development of color techniques, Evans said.

The new station would have a booster atop Mt. Diablo, but would operate independent of the booster station, if necessary. Range of the station would be as far north as Chico and south to include Visalia.

### San Mateo, For Size, Leads State Building

San Mateo led all cities in California in the 20,000 to 50,000 population class in building totals for the first six months of 1950, it was announced today by the Daly Pacific Builder.

Building totaled $8,610,067 for the first six months. This part of a state all time high of $766,169,213, 20 per cent ahead of the same period last year and 16 per cent greater than the first half of 1948.

In cities of all population classes, San Mateo was twelfth, with Los Angeles first and San Francisco second.

Mission San Juan Bautista, in San Benito county, was founded in 1797.

**SPORT FISHING EXCELLENT**

Sport fishing has been excellent during the past week in the waters off Orange county and off the Channel Islands, according to the National Automobile Club. Boats have been coming in with fine catches of albacore.

**LARGE SALMON LANDED**

Many large salmon have been landed recently by anglers working the waters of Humboldt Bay in Humboldt county, reports the National Automobile Club.

## Hit Play, "Death Of A Salesman" Now At Geary

San Francisco's greatest dramatic hit of recent years — that is Arthur Miller's "Death of a Salesman," is now in its final weeks at the Geary Theatre with Thomas Mitchel in the role of Willy Loman, the celebrated salesman who gives the play its title. As a matter of fact, "Death of a Salesman" is a smash hit in any language, as successful productions in Denmark, Sweden, Norway, France, Italy, England, Israel, the Argentine, Uruguay and Austria can attest. In America it has won every award the theatre has to offer, including the Pulitzer Prize and the New York Drama Critic's Prize.

Critics in San Francisco, as everywhere, were lavish in their praise of the drama. "A monumental play has come to town," wrote John Hobart in the Chronicle. "'Death of a Salesman' is a devastating tragedy that engulfs its spectators, and it is marvelously well acted and staged, with Thomas Mitchell giving the performance of his career in the title role." Hortense Morton in the Examiner was equally unstinting in her admiration for the production. She described it as "A superbly written play, a masterpiece in understanding," and then summed up her reaction with "This is theatre — theatre you dream about."

"Death of a Salesman" is presented jointly by Kermit Bloomgarden and Walter Fried, who have had no reason to regret their investment. Like "Streetcar Named Desire" it enlisted the services of the production team of Elia Kazan director, and Jo Mielziner, scene designer, who have combined to make it one of the most brilliantly staged plays of modern times.

For his interpretation of Willy Loman, Thomas Mitchell has been hailed by critics throughout the country. "We cannot imagine anyone turning in a finer dramatic performance," wrote Emilia Hodel in the News, while Fred Johnson in the Call-Bulletin hailed his performance as "Magnificent." The reviewers were equally lavish in their praise of June Walker and Paul Langton as Willy's devoted wife and rebellious son, respectively. Other members of the cast to be singled out for critical applause were Paul Ford, Royal Beal, Darren McGavin, John Buckwalter and Michael Stanley.

"Death of a Salesman" will remain at the Geary Theatre through Saturday evening, July 29. It plays nightly, including Sundays, at 8:30, with matinees on Saturday only at 2:30 p.m.

## Martin Cleaning Machine Praised By Robert Dyer

Describing the Martin Clothes cleaner as truly phenominal, Robert "Bob" Dyer, head of the Twin Cleaners at 6772 Mission street, asserted that it has more than lived up to the claims of the manufacturer.

"You know how it is," explained Bob. "In most cases, the demonstration is much different than results found in practice. But that is not the case with the Martin Machine.

"We have had garments come in that we thought were beyond restoring to anything at all, but once they were touched by the magic of the Martin — well, even the owners were more than surprised."

With that, Bob related several of the important functions achieved by the Martin. "To begin with," he said, "aided by the new solvent put out by the fabricator, it helps restore the natural oils in cloth.

"Next, the new filter employs a vital role. It constantly cleans the liquid, and when I say 'cleans' I mean exactly that. At all times, the fluid is just as clear as water.

"Again, the Martin process brightens clothes. The colors come back to their original hues, unless faded too badly by the sun or acid. Moreover, the average suit acquires a new appearance.

"As for ladies' clothes, our method is astounding to say the least. It has been recognized that dresses have suffered in cleaning, especially those with bright colors.

"But not when they are Martinized. Say, in most instances, the original brilliance is not only restored, but the colors are sharper and really glitter.

"Again, our process makes the feminine materials softer and fluffier. The ladies greatly will appreciate this part of our job, in contrast to ordinary work.

"In this regard, we claim that the Martin machine rejuvenates clothes. It takes more dirt and grime out and at the same time, restores the natural quality of the cloth.

"To prove this contention, we ask folks to bring us garments that other cleaners could not clean satisfactorily. We are so sure of the Martin, we guarantee the results.

"Now let me emphasize that I realize these assertions are pretty strong, however, I have been in the cleaning business for more than twenty years and I have never seen anything like the results of the Martin machine.

"It is fully automatic, it is cushioned to aid the rotary action and eliminate vibration, and the solvent, which was developed by the Martin people, is perfect in every respect."

## 761 Low Cost Rent Units Soon For SF

The U. S. Public Housing Administration has made loans totalling $1,674,200 to 24 communities in northern California, Nevada and Hawaii to enable them to begin work on over 9,000 low-rent permanent public housing units, J. G. Melville, PHA's San Francisco field office director, revealed today.

Included in the figure are 761 units in San Francisco which had been authorized before the war and then deferred when the public housing program was postponed in favor of building temporary war housing, and the first postwar project to be constructed in northern California will be 234 units in San Francisco's Chinatown.

Local requests for federal assistance to build an additional 9,000 units were on file with his office, Melville said, making the total requests made under the Housing Act of 1949 for northern California, Nevada and Hawaii over 18,000 units.

The permanent public housing units are to be planned, built and operated for low-income families by locally appointed city and county commissions, with the federal agency furnishing financial assistance, and reviewing local actions for conformity to the law as passed by Congress.

The Housing Act of 1950 provides for the transfer of federally owned temporary war housing units to communities at their request without charge, provided the communities can obtain effective title to the land. More than 50,000 such units are up for disposition by the Public Housing Authority in northern California, Hawaii, Nevada and Utah.

Melville reported that to date 33 communities have notified PHA of their intent to apply for the temporary structures, and 14 more have indicated they are still considering the matter. Local communities have until the end of the year to apply for the transfer of the war housing projects. Such transfers enable the Local Housing Authorities to relieve temporary housing needs as long as the governing body of the political subdivision feels such assistance is necessary, and at the same time affords considerable additional income to the taxing body.
